SUBJECT

AUTHOR

CONTENTS FOR VOLUME 78

# Index of Subjects

Volume 78, 1975

- Acinar cells**  
mammary, in lactation and involution, 46a
- Adenosine monophosphate**  
Cyclic, affecting mammary tumor explants, 29a
- Adenosine triphosphate**  
depletion of, sickle cells in, 15a
- Adrenal gland**  
cortical carcinoma in neonates, 3a  
disorders with myopathies, 33a  
medullary hyperplasia in medullary thyroid carcinoma, 40a  
microcysts of cortex in newborn, 3a
- Adrenalectomy**  
and prevention of arteriosclerosis, 35a
- Agaricus bisporus**  
inhibitors of, 33, 43a, 61a
- Age**  
as factor in tumor morphology, 60a
- Allergy**  
and endometrial reactions to Dalkon shield, 56a
- Alveolar lipo-proteinosis**  
pulmonary, 171
- Amino acids**  
deprivation of, and autophagocytosis in HeLa cells, 44a  
incorporation into hemoglobin from tRNA species, 24a
- Amyloidosis**  
acceleration by donor cells, 277
- Aneurysms**  
aortic, in *Blotchy* mice, 199
- Animal Models of Human Disease**  
diabetes mellitus, 22a, 65a, 537  
panencephalitis, subacute sclerosing, 361  
pulmonary alveolar lipo-proteinosis, 171
- $\alpha_1$ -Antitrypsin**  
deficiency with liver disease, 4a
- Aorta**  
aneurysms in *Blotchy* mice, 199  
atheromatous plaques in, cholesterol affecting, 69a  
fatty streaks in, in young persons, 64a  
immune-complex-induced injury to, 35a
- Armadillos**  
leprosy induction in, 19a, 66a
- Arthus reaction**  
platelets in, 159
- Astrocytes**  
nuclear bodies in, 319
- Ataxia telangiectasis**  
cytomegaly in, 1a
- Atheromata**  
and emboli in renal biopsies, 261  
and plaques in aorta, cholesterol affecting, 69a  
and thrombosis from umbilical artery catheterization, 3a
- Atherosclerosis**  
and lipid in muscle cell lysosomes, 497  
lipoprotein localization in lesions of, 63a  
plaque cells in, compared to leiomyoma cells, 175  
prevention by adrenalectomy, 35a
- Axillary lymph nodes**  
histology of, 7
- BCG lesions**  
capillary density in, 243
- Beckwith syndrome**  
neoplasms with, 3a, 41a
- Bile canaliculi**  
microfilaments of, 13a
- Biopsy**  
by rectal suction, in Hirschsprung's disease, 2a
- Bladder**  
DDT affecting, 45a  
tryptophan absorption by, in carcinoma, 37a
- Blood pressure**  
in renal medullary necrosis, 51a  
*see also* hypertension
- Bone disease**  
in uremia, 48a, 365, 385
- Bone marrow**  
transplantation of, affecting heart, 31a
- Breast tumors** (*see* mammary tumors)
- C cells**  
thyroidal, in hypercalcemia, 20a
- Calcium**  
influx into sickle cells, effects of, 15a  
and thyroid C cell hyperplasia, 20a
- Candidiasis**  
mucocutaneous, with multiple endocrinopathies, 2a
- Capillaries**  
density in tuberculous lesions, 243
- Carcinoma** (*see* neoplasia)
- Carotid body tumor**  
neurons in, 19a

- Cartilage**  
resistance to invasion, 30a
- Catalase**  
pulmonary, in oxygen toxicity, 8a
- Catecholamines**  
and prevention of arteriosclerosis by adrenalectomy, 35a
- Catheterization**  
of umbilical arteries, and thrombo-atheromatous complications, 3a
- Cells**  
cation localization in, after trauma, 42a  
cytochalasin affecting membranes of, 24a, 59a  
epithelial, in gastric organ culture, 23  
inclusions in (*see* inclusions)  
injury by formaldehyde, 43a  
interaction with *T. cruzi* *in vitro*, 53a  
intralysosomal lipid in atherosclerosis, 497  
leukemic, mitochondria in, 49  
lines susceptible to nuclear function ablation, 46a  
lymphocyte membrane composition, 23a  
multinucleate giant cells, 343  
nuclear bodies in astrocytes, 319  
nuclei of hypertrophied myocytes, 427  
splenic, amyloid accelerant in, 277  
stabilization in sheep cell rosette tests, 69a  
symposium on membranes, 58a  
*see also* specific cell types
- Ceramide lipodosis**  
ultrastructure studies in, 5a
- Cerebrum**  
distribution of lead in, 17a  
edema with hemorrhage of, 18a
- Cervix uteri**  
carcinoma of, and herpes virus, 38a
- Cholangiopathy**  
infantile obstructive, from cytomegalovirus, 1a
- Cholesterol**  
and atheromatous plaque in aorta, 69a
- Chondrodysplasia punctata**  
rhizomelic form of, 4a
- Chylomicrons**  
adhesiveness to arterial endothelium, 63a
- Coagulation**  
in hemoglobinemia, dextran affecting, 469  
and platelets in complement activation, 525
- Complement**  
activation by platelets, 525
- Connective tissue**  
repair in emphysema, 9a
- Copper**  
dietary loading in rabbits, 12a  
serum levels in psoriasis, 70a
- Cornea**  
leukocytes affecting vascularization of, 22a
- Coronary arteries**  
collateral flow in occlusion of, 34a  
diabetic angiopathy of, and wound healing, 65a  
fatty streaks in, in young persons, 64a  
mannitol affecting infarct size in occlusion of, 62a
- Corpus luteum**  
histochemistry of, 60a
- Cryptococcosis**  
diagnosis with immunofluorescence, 17a
- Cysts**  
and congenital adenomatoid malformation of lung, 4a  
microcysts of adrenal cortex in newborn, 3a
- Cytochalasin**  
affecting cell membrane, 24a, 59a
- Cytomegalovirus**  
and infantile obstructive cholangiopathy, 1a  
isolation from foreskin cells, 16a  
meningoencephalitis from, 16a  
and monocyte-mediated glomerulonephritis, 61a  
and thymic atrophy in newborn, 57a
- Cytomegaly**  
in ataxia telangiectasis, 1a
- Dalkon shield**  
endometrial reactions to, 56a
- DDT**  
affecting bladder, 45a
- Dehydroretronecine**  
oncogenic effects of, 37a
- Dermatoses**  
serum copper in, 70a
- Dextran infusions**  
and coagulation in hemoglobinemia, 469
- Diabetes**  
angiopathy in, and wound healing, 22a, 65a  
from EMC virus in mice, 537
- Dialysis patients**  
metabolic bone disease in, 365

- Diarrhea**  
 infantile, and cell-mediated immune deficiency, 1a  
 persistent infectious, 1a
- DiGeorge syndrome**  
 ovaries in, 1a
- DNA**  
 cellular, ultraviolet affecting, 25a
- Edema**  
 cerebral, in hemorrhage, 18a
- Electron microscopy**  
 of avian tuberculosis in monkeys, 54a  
 of breast carcinoma, 401  
 of bronchiolitis obliterans from jute, 7a  
 of cardiac muscle cells, hypertrophied, 427  
 of cytoplasmic body in fetal endothelium, 333  
 of developing lamb heart, 32a  
 of *Entamoeba histolytica* infection, 54a  
 of giant cell carcinoma of lung, 69a  
 of hepatocellular changes from hyperbaric oxygen, 12a  
 of kidney after halothane exposure, 225  
 of leukemic mitochondria, 49  
 of liver changes from endotoxin, 11a  
 of liver changes in renal failure, 13a  
 of macrophage-fibrosarcoma cell interaction, 27a  
 of malignant endothelial cells of blood vessels, 30a  
 of mononuclear cells in sarcoidosis, 461  
 of muscle fibers in *Trichinella* infection, 477  
 of neopithelial cells in gastric organ culture, 25  
 of nuclear bodies in astrocytes, 326  
 of nuclear envelope in renal ischemia, 52a  
 of pancreatic necrosis from 4-HAQO, 44a  
 of parallel tubular inclusions in lymphocytes, 59  
 of Reed-Sternberg cells, 39a  
 of retinal degeneration in cats, 505  
 of silica in bronchiolitis obliterans, 7a  
 of Tangier disease, 101  
 of thyroid carcinoma after radiation, 40a  
 of tracheal rings infected with mycoplasmas, 53a  
 of wound repair, 82
- Embolii**  
 atheromatous, in renal biopsies, 261  
 pulmonary microembolism from platelet aggregates, 10a
- Emphysema**  
 connective tissue repair in, 9a
- Encephalomylitis**  
 experimental allergic, 322
- Encephalomyocarditis virus**  
 diabetes from, in mice, 537
- Endocrinopathies**  
 multiple, with mucocutaneous candidiasis, 2a
- Endothelial cells**  
 in hypertension, 36a  
 fetal, cytoplasmic bodies in, 333
- Endotoxin**  
 liver changes from, 11a
- Entamoeba histolytica**  
 electron microscopy of infection in guinea pigs, 54a
- Enzymes**  
 emphysema induced by, 9a  
 hepatic microsomal, halothane affecting, 14a  
 pulmonary catalase in oxygen toxicity, 8a  
 serine dehydase in liver, 309
- Epithelium**  
 gastric, in organ cultures, 23
- Erythrocytes**  
 stabilization in sheep cell rosette test, 69a
- Farber's disease**  
 ultrastructure studies in, 5a
- Feldman, William Hugh, 3**
- Fetus**  
 cytoplasmic body in endothelium of, 333  
 inflammatory response in, 2a
- Foreskin cells**  
 for isolation of cytomegalovirus, 16a
- Formaldehyde**  
 cellular injury by, 43a
- Fucosidosis**  
 skin and sweat glands in, 4a
- Fungal infections**  
 immunofluorescence in diagnosis of, 17a
- Gaucher's disease**  
 monoclonal gammopathy in, 70a
- Giant cells**  
 multinucleate, phagocytosis by, 343
- Glia**  
 cerebral, lead distribution in, 17a

- Glomerulonephritis**  
monocyte-mediated, in CMV infection, 61a  
unilateral, 50a
- Glucosuria**  
in tubular necrosis, 49a
- Glycogen**  
in double membrane arrays in cells, 191
- Gold Headed Cane Award**, 360
- Growth**  
retardation in newborn, from cytomegalovirus, 57a
- Halothane**  
affecting liver, 14a  
and hepatic microsomal enzyme activity, 14a  
kidney changes from, 225
- Heart**  
developing, in lambs, electron microscopy of, 32a  
in hepatoadrenal function disorders, 33a  
mannitol affecting infarct size in coronary occlusion, 62a  
marrow transplantation affecting, 31a  
myocardial blood flow in infarction, 34a  
nuclei of hypertrophied muscle cells in, 427
- HeLa cells**  
autophagocytosis in, 44a  
incubated with oleate, 29a
- Hematuria**  
idiopathic, renal changes in, 50a
- Hemodialysis patients**  
metabolic bone disease in, 365
- Hemoglobin**  
amino acid incorporation from tRNA species, 24a
- Hemoglobinemia**  
coagulation in, dextran affecting, 469
- Hemorrhage**  
cerebral edema in, 18a
- Hernia**  
cell-to-cell, in vascular wall, 21a
- Herpes**  
and cervical carcinoma, 38a  
labialis, virus-antibody complexes in, 57a
- Hirschsprung's disease**  
and neuroblastoma, 2a  
rectal suction biopsy in, 2a
- Hodgkin's disease**  
ultrastructure of Reed-Sternberg cells in, 39a
- Hyaline membrane disease**  
and group B  $\beta$ -hemolytic streptococcus, 67a
- 4-Hydroxyaminoquinoline-1-oxide**  
pancreatic necrosis from, 44a
- Hypertension**  
endothelial cell changes in, 36a  
experimental, renal, 297  
metabolic profiles in early diagnosis of, 47a
- Hypotonia**  
fatal infantile, nemaline myopathy in, 18a
- Hypoxemia**  
and sudden infant death syndrome, 68a
- Immature infants**  
clinical and pathologic correlates in, 4a
- Immune complex**  
aortic injury from, 35a  
binding to macrophages, 55a
- Immune function**  
in cancer patients, 26a  
cell-mediated deficiency after infantile diarrhea, 1a
- Immunization**  
and infertility in mice, 55a
- Immunized rats**  
lymphocyte plasma membranes in, 23a
- Immunofluorescence**  
in diagnosis of fungal infections, 17a
- Immunoglobulins**  
in monoclonal gammopathy in Gaucher's disease, 70a
- Immunology**  
tumor antigen in sarcoma cells, 28a  
tumor-enhancing IgG<sub>2</sub> alloantibody, 27a  
virus-antibody complexes in herpes labialis, 57a
- Inclusions**  
in astrocytes, 319  
in fetal endothelial cells, 333  
in lymphocytes, 59  
in mitochondria, 42a  
in mononuclear cells in sarcoidosis, 461  
pseudooinclusions in cardiac muscle cells, 427
- Infertility**  
immunologic, in mice, 55a
- Insulin**  
effect on wound healing, 22a
- Interference contrast microscopy**  
of vein and arterial grafts, 32a
- Intestines**

- Hirschsprung's disease in, 2a  
 ulcers of small intestine in newborn, 3a
- Ischemia**  
 renal, 41a, 42a
- Jute**  
 burning, bronchiolitis obliterans from, 7a
- Kidney**  
 atheromatous emboli in, 261  
 chronic failure with hepatic changes, 13a  
 collecting tubules in hyperuricemic nephropathy, 48a  
 drug-induced medullary necrosis of, 51a  
 halothane affecting, 225  
 hypertension in, experimental, 297  
 in idiopathic hematuria, 50a  
 ischemic injury to, 41a, 42a  
 lymphatic occlusion of, effects of, 285  
 myeloma nephropathy, 49a  
 transplanted, histologic studies after removal of, 67a  
 tubular necrosis with proteinuria and glucosuria, 49a  
 unilateral glomerulonephritis, 50a  
 uremic bone disease, 48a, 365, 385
- Laboratory tests**  
 ordering of, 5a
- Lactation**  
 mammary acinar cells in, 46a
- Lead**  
 cerebral, distribution of, 17a
- Leiomyoma cells**  
 compared to atherosclerotic plaque cells, 175
- Leprosy**  
 induced in armadillos, 19a, 66a
- Leukemia**  
 in AKR mice, 26a, 27a  
 mitochondria in cells of, 49
- Leukocytes**  
 adhesiveness to arterial endothelium, 63a  
 in corneal vascularization, 22a  
 in detection of early malignancy, 65a, 66a
- Lipid**  
 deposits in Tangier disease, 101  
 intralyosomal, in atherosclerosis, 497
- Lipidoses**  
 ceramide, ultrastructure studies in, 5a
- Lipoprotein**
- localization in atherosclerotic lesions, 63a  
 uptake by lung, 10a
- Lipo-proteinosis**  
 alveolar, induction of, 171
- Lipotropic hormones**  
 multipotent, in pituitary cells, 20a
- Liver**  
 cellular changes from hyperbaric oxygen, 12a  
 in chronic renal failure, 13a  
 copper-loading affecting, 12a  
 disorders with  $\alpha_1$ -antitrypsin deficiency, 4a  
 disorders with myopathies, 33a  
 double membrane arrays in cells of, 191  
 endotoxin affecting, 11a  
 experimental necrosis of, 11a  
 halothane affecting, 14a  
 schistosomiasis of, spleen in, 211  
 serine dehydratase in, 309
- Lung**  
 allergic pneumonitis, animal model of, 7a  
 alveolar lipo-proteinosis induction, 171  
 bronchioloalveolar tumor, 6a  
 catalase activity in oxygen toxicity, 8a  
 congenital cystic adenomatoid malformation of, 4a  
 connective tissue repair in emphysema, 9a  
 damage from hyperoxia, 9a  
 giant cell carcinoma of, 69a  
 intrapleural injury of, 6a  
 lipoprotein uptake by, 10a  
 lymphocyte migration in interstitial pneumonitis, 8a  
 microembolism by platelet aggregates, 10a  
 organ cultures of, 62a
- Lymphatics**  
 axillary, histology of, 7  
 renal, occlusion of, 285
- Lymphocytes**  
 migration in interstitial pneumonitis, 8a  
 parallel tubular inclusions in, 59  
 plasma membranes of, 23a  
 radiation affecting PHA binding to, 23a
- Lysosomes**  
 lipid in, in atherosclerosis, 497
- Macrophages**  
 immune complexes binding to, 55a

- interaction with fibrosarcoma cells, 27a  
in wound repair, 71
- Mammary glands**  
in lactation and involution, 46a
- Mammary tumors**  
cyclic AMP affecting, 29a  
detection of early distant metastases in, 39a  
pituitary transplants affecting, 38a  
ultrastructure of carcinomas, 401
- Mannitol**  
and infarct size in coronary occlusion, 62a
- Marrow**  
transplantation of, affecting heart, 31a
- Membranes**  
cellular, symposium on, 58a  
see also cells
- Meningitis**  
cryptococcal, diagnosis with immunofluorescence, 17a
- Meningoencephalitis**  
experimental, 16a
- Metastases**  
in breast cancer, early detection of, 39a
- Methyl mercury**  
teratogenic effects of, 45a
- Microembolism**  
pulmonary, from platelet aggregates, 10a
- Mitochondria**  
inclusions in, 42a  
leukemic, 49
- Monocytes**  
CMV-infected, and glomerulonephritis, 61a
- Muscle cells**  
of atherosclerotic plaques, 175  
cardiac, hypertrophied, 427  
double membrane arrays in, 191  
intralysosomal lipids in atherosclerosis, 497  
in *Trichinella* infection, 477
- Mycobacterium avium**  
infection in monkeys, 54a
- Mycoplasmas**  
tracheal rings infected with, tissue cultures of, 53a
- Myeloma nephropathy, 49a**
- Myopathies**  
in hepatoadrenal function disorders, 33a  
nemaline, in infantile hypotonia, 18a
- Myocardium (see heart)**
- Neoplasia**  
absorption of tryptophan by bladder in carcinoma, 37a  
adrenal medullary hyperplasia in medullary thyroid carcinoma, 40a  
adrenocortical carcinoma in neonates, 3a  
antitumor quinoids, 33, 43a, 61a  
with Beckwith syndrome, 3a, 41a  
of breast (see mammary tumors)  
bronchioloalveolar, intravascular, 6a  
and cardiac effects of marrow transplants, 31a  
of carotid body, neurons in, 19a  
cartilage resistance to invasion, 30a  
dissemination of tumor cells in syngeneic mouse tumor, 28a  
dosage of SV 40 affecting tumor morphology, 60a  
giant cell carcinoma of lung, 69a  
HeLa cells incubated with oleate, 29a  
immune function in cancer patients, 26a  
leukocytes in detection of early malignancy, 65a, 66a  
macrophage-fibrosarcoma cell interactions, 27a  
malignant endothelial cells of blood vessels, 30a  
oncogenic effects of dehydroretronecine, 37a  
polyhistioma, 41a  
Reed-Sternberg cell ultrastructure in Hodgkin's disease, 39a  
thyroid carcinoma ultrastructure after radiation, 40a  
tumor antigen in sarcoma cells, 28a
- Nervous system, central**  
in leprosy in armadillos, 19a  
nuclear bodies in, 319
- Neuroblastoma**  
and Hirschsprung's disease, 2a  
and neurofibromatosis, 2a
- Neurofibromatosis**  
and neuroblastoma, 2a
- Neurons**  
in carotid body tumor, 19a  
lead distribution in, 17a
- Nutrition**  
and Newcastle virus disease with vitamin A deficiency, 417  
retinal degeneration in protein deficiency, 505
- Newcastle virus infection**  
in vitamin A deficiency, 417
- Oleate**  
HeLa cells incubated with, 29a

- Organ cultures**  
 in cervical carcinoma from herpes virus, 38a  
 gastric, 23  
 of lung, 62a  
 tracheal rings infected with mycoplasmas, 53a
- Ovaries**  
 corpus luteum histochemistry, 60a  
 in DiGeorge syndrome, 1a
- Oxygen**  
 hyperbaric, hepatocellular changes from, 12a  
 hypoxemia and sudden infant death syndrome, 68a  
 pulmonary damage from hyperoxia, 8a, 9a
- Pancreas**  
 necrosis from 4-HAQO, 44a
- Panencephalitis**  
 subacute sclerosing, animal model of, 361
- Phagocytosis**  
 autophagocytosis in HeLa cells, 44a  
 by multinucleate giant cells, 343
- Phytohemagglutinin**  
 binding to lymphocytes, radiation affecting, 23a
- Pituitary gland**  
 multipotent lipotropic hormones in cells of, 20a  
 transplanted, and growth of mammary tumors, 38a
- Plaque cells**  
 atherosclerotic, compared to leiomyoma cells, 175
- Platelets**  
 aggregates of, pulmonary microembolism from, 10a  
 in Arthus reaction, 159  
 in complement activation, 525  
 satellitism of, 64a
- Pneumonitis**  
 allergic, animal model of, 7a  
 interstitial, lymphocyte migration in, 8a
- Polychlorinated biphenyls**  
 tissue responses to, 68a
- Polyhistioma**, 41a
- Portal pressure**  
 in hepatic schistosomiasis, 211
- Propranolol**  
 and collateral flow in coronary occlusion, 34a
- Protein deficiency**  
 and retinal degeneration in cats, 505
- Proteinuria**  
 in tubular necrosis, 49a
- Pseudoinclusions**  
 nuclear, in cardiac muscle cells, 427
- Psoriasis**  
 serum copper in, 70a
- Quinoids**  
 antitumor, 33, 43a, 61a
- Radiation**  
 and PHA binding to lymphoid cells, 23a  
 and ultrastructure of thyroid carcinomas, 40a
- Radioimmunoassay**  
 in early detection of metastases in breast cancer, 39a
- Rectum**  
 suction biopsy of, in Hirschsprung's disease, 2a
- Reed-Sternberg cells**  
 ultrastructure of, 39a
- Respiratory tract**  
 Newcastle viral infection of, in vitamin A deficiency, 417
- Retina**  
 degeneration in cats, 505
- RNA**  
 transfer, and amino acid incorporation into hemoglobin, 24a
- Rosette test**  
 with sheep red cells, stabilization in, 69a
- Sarcoidosis**  
 and inclusions in mononuclear cells, 461
- Satellitism**  
 platelet, 64a
- Schistosomiasis**  
 hepatic, spleen in, 211
- Scintigraphy**  
 in early detection of metastases in breast cancer, 39a
- Serine dehydratase**  
 in liver, 309
- Shock**  
 and inflammatory response, 159
- Sickle cells**  
 calcium influx and ATP depletion affecting, 15a
- Silica**  
 alveolar lipo-proteinosis from, 171  
 in bronchiolitis obliterans, 7a
- Skin**  
 in fucosidosis, 4a  
 serum copper in psoriasis, 70a

- Sodium**  
natriuresis in renal medullary necrosis, 51a
- Spleen**  
amyloid accelerator activity in cells, 277  
autoantigens to thymocytes, 56a  
in hepatic schistosomiasis, 211  
T cells in neonatal AKR mice, 26a
- Stomach**  
reepithelialization of mucosa, 23
- Streptococcus**  
group B  $\beta$ -hemolytic, and hyaline membrane disease, 67a
- SV 40**  
dosage affecting tumor morphology, 60a
- Sweat glands**  
in fucosidosis, 4a
- T cells**  
in spleen of neonatal AKR mice, 26a
- Tangier disease**, 101
- Thermodynamics**  
and cell injury by formaldehyde, 43a
- Thromboatheromata**  
from umbilical arterial catheterization, 3a
- Thymocytes**  
splenic autoantigens to, 56a
- Thymus**  
atrophy in newborn, from eptomegalovirus, 57a  
and leukemia development in AKR mice, 27a  
transplantation in multiple endocrinopathies, 2a
- Thyroid gland**  
C cells of, in hypercalcemia, 20a  
carcinoma ultrastructure after radiation, 40a  
medullary carcinoma with adrenal medullary hyperplasia, 40a
- Tilorone**  
and nuclear bodies in astrocytes, 319
- Tracheal rings**  
infected with mycoplasmas, tissue cultures of, 53a
- Transplantation**  
of kidney, histologic studies after removal of, 67a  
marrow, cardiac effects of, 31a  
pituitary, and growth of mammary tumors, 38a  
renal, and bone diseases, 385  
thymic, in multiple endocrinopathies, 2a
- Trichinella infection**
- muscle fibers in, 477
- Trypanosoma cruzi**  
interaction with cells *in vitro*, 53a
- Tryptophan**  
absorption by bladder in carcinoma, 37a
- Tuberculosis**  
avian, in monkeys, 54a  
capillary density in lesions of, 243
- Tumors (see neoplasia)**
- Typhus**  
tick, incidence of, 4a
- Ulcer**  
of small intestine in newborn, 3a
- Ultraviolet light**  
affecting cellular DNA, 25a
- Umbilical arteries**  
catheterization of, and thromboatheromatous complications, 3a
- Uremia**  
and bone disease, 48a, 365, 385
- Uric acid**  
deposits in collecting tubules, 48a
- Uterus**  
allergic reactions to Dalkon shield, 56a  
herpes virus and cervical carcinoma, 38a
- Vacuoles**  
arterial, from cell-to-cell herniae, 21a
- Vascularization**  
corneal, leukocytes affecting, 22a
- Vasculature**  
aortic conditions (*see* aorta)  
atherosclerosis of (*see* atherosclerosis)  
capillary density in tuberculous lesions, 243  
cell-to-cell herniae in arterial walls, 21a  
chylomicron adhesiveness to arterial endothelium, 63a  
complications from umbilical artery catheterization, 3a  
diabetic angiopathy and wound healing, 22a, 65a  
grafts studies by interference contrast microscopy, 32a  
malignant endothelial cells of blood vessels, 30a  
model for diabetic angiopathy, 22a  
myocardial blood flow in infarction, 34a  
propranolol affecting collateral flow

- in coronary occlusion, 34a  
    renal venous constriction, effects of,  
        285
- Viruses**
- cytomegalovirus (*see* cytomegalovirus)  
    diabetes from EMC virus in mice,  
        537  
    dosage of SV 40 affecting tumor  
        morphology, 60a  
    herpes labialis infections, 57a
- herpes virus and cervical carcinoma,  
        38a  
    interactions with membranes, 59a  
    Newcastle disease in vitamin A deficiency, 417
- Vitamin A deficiency**
- and Newcastle virus infection, 417
- Wound healing**
- and diabetic angiopathy, 22a, 65a  
    macrophages in, 71

## Index of Authors

Volume 78, 1975

Abraham JL: <i>See</i> DeNee PB, Abraham JL, Gelderman AH .....	7a
Abramowsky CR: <i>See</i> Bradford WD, Abramowsky CR .....	4a
Ahmed MN: <i>See</i> Wang NS, Seemayer TA, Ahmed MN, Knaack J .....	69a
Allen JR, Hsu I-C: Oncogenic effects of dehydroretronecine in rats (January) .....	36a
Allen JR: <i>See</i> Dudley AW Jr, Allen JR, Chang LW, Dudley MA .....	14a
Allen JR: <i>See</i> Norback DH, Allen JR .....	68a
Anderson C, Ulan RA: Uremic bone disease studied by the Tripp and MacKay method (January) .....	48a
Anderson RE: <i>See</i> Standefer JC, Scaletti JV, Anderson RE .....	23a
Andrews EJ, White WJ, Bullock LP: Spontaneous aortic aneurysms in <i>Blotchy</i> mice (February) .....	199 13a
Arias IM: <i>See</i> Biempica L, Goldfischer S, Black M, Biempica SL, Arias IM .....	199
Arquilla ER, Heather R, Schug W, Weringer EJ: A possible relationship between diabetic coronary angiopathy and wound healing (January) .....	65a
Arquilla ER: <i>See</i> Weringer EJ, Sugiyama R, Schug W, Arquilla ER .....	22a
Arthur TE: Morphologic changes and kinetics of leukocytes as a detection test for early malignancy (January) .....	65a
Arthur TE: <i>See</i> Dawson CH, Arthur TE .....	66a
Axelrad M, Kisilevsky R, Beswetherick S: Acceleration of amyloidosis by syngeneic spleen cells from normal donors (February) .....	277
Bailey RP: <i>See</i> Spear GS, Slusser RJ, Garvin J, Horger EO III, Bailey RP, Schneider JA .....	333
Balentine JD, Binford CH, Storrs E: Central nervous system pathology of armadillos infected with <i>Mycobacterium Leprae</i> (January) .....	19a
Balentine JD, Greene WB: Hepatocellular ultrastructure following hyperbaric oxygen exposure (January) .....	12a
Bang BG: <i>See</i> Bang FB, Bang BG, Foard M .....	417
Bang FB, Bang BG, Foard M: Acute Newcastle viral infection of the upper respiratory tract of the chicken. II. The effect of diets deficient in vitamin A on the pathogenesis of the infection (March) .....	417
Banks P, Bradford WW, Hawkins HK, Sidbury JB Jr: Ultrastructural studies of a new case of Farber's lipogranulomatosis (ceramide lipidosis) (January) .....	5a
Baron DA: <i>See</i> Mahan GB, Baron DA, Esterly JR .....	6a
Barroso-Moguel R: <i>See</i> Costero I, Barroso-Moguel R .....	19a
Bazin H: <i>See</i> Smith WI, Ladoulis CT, Mishra DN, Gill TJ III, Bazin H .....	23a
Becker FF: <i>See</i> Dumont AE, Becker FF, Warren KS, Martelli AB .....	211
Belcher RW, Czarnetzki BM, Campbell PB: Ultrastructure of inclusions in peripheral blood mononuclear cells in sarcoidosis (March) .....	461
Benditt EP: <i>See</i> Moss NS, Benditt EP .....	175
Bensch KG: <i>See</i> Bonikos DS, Bensch KG, Northway WH .....	9a
Beratis NG: <i>See</i> Strauss L, Kousseff B, Beratis NG .....	4a
Berman L: <i>See</i> Dikman S, Strauss L, Taylor N, Berman L, Churg J .....	50a
Berson EL: <i>See</i> Hayes KC, Rabin AR, Berson EL .....	505
Beswetherick S: <i>See</i> Axelrad M, Kisilevsky R, Beswetherick S .....	277
Biempica L, Goldfischer S, Black M, Biempica SL, Arias IM: Hepatic ultrastructural abnormalities in experimental chronic renal failure (January) .....	13a
Biempica SL: <i>See</i> Biempica L, Goldfischer S, Black M, Biempica SL, Arias IM .....	13a
Binford CH, Storrs EE, Walsh GP: Leprosy in the armadillo: A new model in leprosy research (January) .....	66a
Binford CH: <i>See</i> Balentine JD, Binford CH, Storrs E .....	19a
Bishop SP, White FC, Bloor CM: Regional myocardial blood flow during acute myocardial infarction in unanesthetized normal and hypoxicemic dogs (January) .....	34a
	551

Black M: <i>See</i> Biempica L, Goldfischer S, Black M, Biempica SL, Arias IM	13a
Bloor CM: <i>See</i> Bishop SF, White FC, Bloor CM	34a
Bluestone R: <i>See</i> Waisman J, Mwasi LM, Bluestone R, Klinenberg JR	48a
Bonikos DS, Bensch KG, Northway WH: Progressive irreversible pulmonary damage caused by chronic exposure to 100% oxygen (January)	9a
Bradford WD, Abramowsky CR: Tick typhus: A disease of increasing incidence in the United States (January)	4a
Bradford WD: <i>See</i> Banks P, Bradford WD, Hawkins HK, Sidbury JB Jr.	5a
Bradford WD: <i>See</i> Mitchener JS, Hawkins HK, Bradford WD, Shelburn JD	44a
Braude A: <i>See</i> Katzenstein A, Davis C, Braude A	67a
Breinin GM: <i>See</i> Davidowitz J, Philips GH, Pachter BR, Breinin GM	191
Brody AR, Davis GS, Landis JN, Graham WG, Craighead JE: Intrapulmonary migration of mononuclear cells in human interstitial pneumonitis (January)	8a
Brody AR: <i>See</i> Craighead JE, Brody AR	61a
Brugo E: <i>See</i> Rodin AE, Mueller E, Brugo E	3a
Brunning RD, Parkin J: Ultrastructural studies of parallel tubular arrays in human lymphocytes (January)	59
Brunson JG: <i>See</i> Tanksley DR, Lockhard VC, Brunson JG	11a
Brunson JG: <i>See</i> Warren ET, Cruse JM, Pasley JW Jr, Lockard VG, Brunson JG	27a
Buja LM, Ferrans VJ, Graw RG Jr: Cardiac pathologic findings in patients treated with bone marrow transplantation (January)	31a
Bullock LP: <i>See</i> Andrews EJ, White WJ, Bullock LP	199
Burk KH, Drewinko B, Lichtiger B, Trujillo JM: Cell cycle dependency of tumor antigen expression in human sarcoma cells (January)	28a
Campbell PB: <i>See</i> Belcher RW, Czarnetzki BM, Campbell PB	461
Campbell WG Jr: Effects of copper-loading in rabbits on the subcellular distribution of liver copper, acid phosphatase, acid $\beta$ -glucuronidase and neutral thiamine pyrophosphatase: Some comparisons with copper loading in rats (January)	12a
Capuzzi DM: <i>See</i> Pietra GG, Spagnoli LG, Capuzzi DM, Marsh JB, Fishman AP	10a
Carone FA, Peterson DR, Ganote CE, Nakamura S: The pathogenesis of proteinuria and glucosuria in D-serine-induced tubular necrosis	49a
Carone FA: <i>See</i> Stolarczyk J, Carone FA	285
Carstens P: <i>See</i> Pirkle H, Carstens P	10a
Casey AE, McKernan B, Downey EL, Hall LM, Robinson T: Hypertensive nephropathy with hyperglycemic azotemia: Hyperglycemic, retrograde, post-toxic, diagnosed and latent (January)	47a
Castro R: <i>See</i> Sotelo-Avila C, Gooch WM, Castro R	41a
Chang LW, Dudley AW Jr, Katz J: Ultrastructural pathology of the liver after chronic exposure to halothane (January)	14a
Chang LW, Dudley AW Jr, Lee YK, Katz J: Ultrastructural changes in the kidney following chronic exposure to low levels of halothane (February)	225
Chang LW: <i>See</i> Dudley AW Jr, Allen JR, Chang LW, Dudley MA	14a
Chang LW: <i>See</i> Voss K, Change LW, Reuhl K	45a
Chatten J, Witzleben CL: Neuroblastoma and Hirschsprung's disease (January)	2a
Chatten J: <i>See</i> Witzleben CL, Chatten J	1a
Chiang T: <i>See</i> Lee V, Chiang T, Deodhar S	28a
Chraplyvy M: <i>See</i> Kuhn C, Chraplyvy M, Ogle J, Yu S-Y	9a
Chrétien M: <i>See</i> Furth J, Chrétien M, Moy P, Grauman J	20a
Churg J: <i>See</i> Dikman E, Strauss L, Taylor N, Berman L, Churg J	50a
Clasen RA, Pandolfi S, Laing I: A quantitative study of cerebral edema in massive spontaneous intracerebral hemorrhage (January)	18a
Coleman SE: <i>See</i> Hackett RL, Coleman SE, Duggan J	52a

Collins RD: <i>See</i> Glick AD, Horn RG, Leech JH, Waldron JA, Flexner JM, Collins RD	39a
Coogan PS, Kalin G, Ekbal S, Flanagan M, Hass GM: Absorption of tryptophan by the urinary bladder of patients with carcinoma of the bladder (January)	37a
Costero I, Barroso-Moguel R: Neurons and neuronoid cells in carotid body tumor (January)	19a
Courtade ET, Tsuda T, Thomas CR, Dannenberg AM Jr: Capillary density in developing and healing tuberculous lesions produced by BCG in rabbits: A quantitative study (February)	243
Courtice FC: <i>See</i> Robertson AL Jr, Courtice FC	63a
Cox DW: <i>See</i> Cutz E, Moroz SP, Sass-Kortsak A, Cox DW	4a
Craighead JE: ANIMAL MODEL OF HUMAN DISEASE: Diabetes mellitus (Juvenile and maturity onset types) (March)	537
Craighead JE, Brody AR: Monocyte-mediated glomerulonephritis in cytomegalovirus-infected mice (January)	61a
Craighead JE: <i>See</i> Brody AR, Davis GS, Landis JN, Graham WG, Craighead JE	8a
Croen K: <i>See</i> Rosenbaum RM, Croen K, Kress Y, Wittner M, Goldfischer S	8a
Crosby WH: <i>See</i> Spector JI, Lang JE, Crosby WH	469
Cruse JM: <i>See</i> Warren ET, Cruse JM, Pasley JW Jr, Lockard VG, Brunson JG	27a
Cutz E, Moroz SP, Sass-Kortsak A, Cox DW: Histopathology of liver disease associated with $\alpha_1$ -antitrypsin deficiency (January)	4a
Czarnetzki BM: <i>See</i> Belcher RW, Czarnetzki BM, Campbell PB	461
Dail D, Liebow A: Intravascular bronchioloalveolar tumor (January)	6a
Daniels CA, Notkins AL: The local concentration of virus-antibody complexes in patients with herpes labialis (January)	57a
Daniels CA: <i>See</i> Schwartz JN, Daniels CA, Klintworth GK	57a
Dannenberg AM Jr: <i>See</i> Courtade ET, Tsuda T, Thomas CR, Dannenberg AM Jr	243
Davidowitz J, Philips GH, Pachter BR, Breinin GM: Particle-free and glycogen-bearing double membrane arrays in extraocular muscle of rabbit (February)	191
Davis C: <i>See</i> Katzenstein A, Davis C, Braude A	67a
Davis GS: <i>See</i> Brody AR, Davis GS, Landis JN, Graham WG, Craighead JE	8a
Davis JW: <i>See</i> McGregor DH, Liu PI, Davis JW, Gates E, Poindexter AR	64a
Dawson CH, Arthur TE: A possible screening test for the detection of malignancy in untreated patients based on white blood cell analysis (January)	66a
DeBakey ME: <i>See</i> Hoff HF, Heidman CL, Jackson RL, Titus JL, DeBakey ME, Gotto AM	63a
Deitch AD: <i>See</i> Sawicki SG, Godman GC, Deitch AD	46a
DeLellis RA, Wolfe HJ, Gang DL, Gagel RF: Adrenal medullary hyperplasia in familial medullary thyroid carcinoma (January)	40a
DeLellis RA: <i>See</i> Wolfe HJ, DeLellis RA, Scott RT, Tashjian AH Jr	20a
DeNee PB, Abraham JL, Gelderman AH: Bronchiolitis obliterans and silica in human lung following exposure to burning jute: A scanning electron microscope study (January)	7a
Deodhar S: <i>See</i> Lee V, Chiang T, Deodhar S	28a
DeSa DJ, Moore S, Tyson J: Thromboatheromatous complications of umbilical arterial catheterization in the newborn period (January)	3a
Despommier D: Adaptive changes in muscle fibers infected with <i>Trichinella spiralis</i> (March)	477
Diamandopoulos GTh, McLane M-F: Effect of host age and virus dose on tumor incidence, latency and morphology in Syrian golden hamsters inoculated intravenously with SV 40 (January)	60a
Dibbins AW: <i>See</i> Yunis EJ, Dibbins AW	2a
Dikman S, Strauss L, Taylor N, Berman L, Churg J: Unilateral glomerulonephritis (January)	50a

Downey EL: <i>See</i> Casey AE, McKernan B, Downey EL, Hall LM, Robinson T	47a
Drake RM: <i>See</i> Stocker JT, Drake RM	4a
Drewinko B: <i>See</i> Burk KH, Drewinko B, Lichtiger B, Trujillo JM	28a
Dudley AW Jr, Allen JR, Chang LW, Dudley MA: Effect of chronic low-level exposure to halothane on hepatic microsomal enzyme activity (January)	14a
Dudley AW Jr: <i>See</i> Chang LW, Dudley AW Jr, Katz J	14a
Dudley AW Jr: <i>See</i> Chang LW, Dudley AW Jr, Lee YK, Katz J	225
Dudley MA: <i>See</i> Dudley AW Jr, Allen JR, Chang LW, Dudley MA	14a
Duggan J: <i>See</i> Hackett RL, Coleman SE, Duggan J	52a
Dumont AE, Becker FF, Warren KS, Martelli AB: Regulation of spleen growth and portal pressure in hepatic schistosomiasis (February)	211
Dutz W: Histopathology of persistent infectious diarrhea (January)	1a
Dutz W, Rossipal E, Ghavami H, Vessal K: Persistent acquired cell-mediated immune deficiency following infantile diarrhea during the first six months of life (January)	1a
Eisenstein R, Sorgente N, Kuettner KE: Does cartilage contain extractable factors which inhibit invasion? (January)	30a
Ekbal S: <i>See</i> Coogan PS, Kalin G, Ekbal S, Flanagan M, Hass GM	37a
Ende N, Pierce JC: Histologic examination of removed transplanted kidneys (January)	67a
Esterly JE: <i>See</i> Haruda FA, Esterly JE	2a
Esterly JR: <i>See</i> Mahan GB, Baron DA, Esterly JR	6a
Esterly JR: <i>See</i> Wiley CA, Esterly JR	60a
Fernandes G, Stutman O, Yunis EJ: Thymic-dependent leukemia in AKR mice: Requirement of an intact thymic stroma (January)	26a
Fernandes G, Yunis EJ: Neonatal presence of T-cell subpopulation in spleen of AKR mice (January)	26a
Ferrans VJ, Fredrickson DS: The pathology of Tangier disease: A light and electron microscopic study (January)	101
Ferrans VJ, Jones M, Maron BJ, Roberts WC: The nuclear membranes in hypertrophied human cardiac muscle cells (March)	427
Ferrans VJ: <i>See</i> Buja LM, Ferrans VJ, Graw RC Jr	31a
Fisher DR: <i>See</i> Schumacher HR, Szekely IE, Fisher DR	49
Fisher MM: <i>See</i> Phillips MJ, Oda M, Fisher MM, Jeejeebhoy KN	13a
Fishman AP: <i>See</i> Pietra GG, Spagnoli LG, Capuzzi DM, Marsh JB, Fishman AP	10a
Flanagan M: <i>See</i> Coogan PS, Kalin G, Ekbal S, Flanagan M, Hass GM	37a
Flexner JM: <i>See</i> Glick AD, Horn RG, Leech JH, Waldron JA, Flexner JM, Collins RD	39a
Foard M: <i>See</i> Bang FB, Bang BG, Foard M	417
Fredrickson DS: <i>See</i> Ferrans VJ, Fredrickson DS	101
Friedman W: <i>See</i> Sheldon CA, Friedman W, Sybers HD	32a
Fromer C, Klintworth GK: Suppression of silver nitrate-induced corneal vascularization in the rat by leukocytic elimination (January)	22a
Fuchs JC: <i>See</i> Ratliff NB, Fuchs JC, Pickett JP, Hagen PO, Hackel DB	32a
Furcht LT, Scott RE: Modulation of membrane organization in normal and transformed cells: The effect of cytochalasin B (January)	24a
Furth J, Chrétien M, Moy P, Grauman J: Studies in search of a pituitary cell producing the multipotent lipotropic hormones (January)	20a
Gabbiani G, Hüttner I, Rona G: Endothelial cell changes in experimental hypertension (January)	36a
Gagel RF: <i>See</i> DeLellis RA, Wolfe HJ, Gang DL, Gagel RF	40a
Gang DL: <i>See</i> DeLellis RA, Wolfe HJ, Gang DL, Gagel RF	40a
Ganote CE: <i>See</i> Carone FA, Peterson DR, Ganote CE, Nakamura S	49a
Garvin AJ: <i>See</i> McKeever PE, Garvin AJ	55a

Garvin J: <i>See</i> Spear GS, Slusser RJ, Garvin J, Horger EO III, Bailey RP, Schneider JA .....	333
Gates E: <i>See</i> McGregor DH, Liu PI, Davis JW, Gates E, Poindexter AR .....	64a
Geer JC: <i>See</i> Sharma HM, Geer JC .....	35a
Ghavami H: <i>See</i> Dutz W, Rossipal E, Ghavami H, Vessal K .....	1a
Gilbert EF, Viseskl C, Opitz JM: Pathologic studies of chondrodysplasia punctata—rhizomelic form .....	4a
Gilbert EF: <i>See</i> Gilchrist K, Gilbert EF, Hong R, Horowitz S .....	2a
Gilchrist K, Gilbert EF, Hong R, Horowitz S: Pathologic changes in mucocutaneous candidiasis with multiple endocrinopathies and thymic transplantation (January) .....	2a
Gill TJ III: <i>See</i> Smith WI, Ladoulis CT, Mishra DN, Gill TJ III, Bazin H .....	23a
Gillies CG, Raye J, Srinivasan U, Goldblatt PJ: Nemaline myopathy as a possible cause of rapidly fatal infantile hypotonia (January) .....	18a
Glaumann B: <i>See</i> Trump BF, Glaumann B .....	51a
Glick AD, Horn RG, Leech JH, Waldron JA, Flexner JM, Collins RD: Ultrastructural study of Reed-Sternberg cells: Comparison with transformed lymphocytes and histiocytes (January) .....	39
Godman G: Action of cytochalasin on cell membranes (January) .....	59a
Godman GC: <i>See</i> Sawicki SG, Godman GC, Deitch AD .....	46a
Goldblatt PJ: <i>See</i> Gillies CG, Raye J, Srinivasan U, Goldblatt PJ .....	18a
Goldfischer S, Schiller B, Wolinsky H: Lipid accumulation in smooth muscle cell lysosomes in primate atherosclerosis (March) .....	497
Goldfischer S: <i>See</i> Biempica L, Goldfischer S, Black M, Biempica SL, Arias IM	13a
Goldfischer S: <i>See</i> Rosenbaum RM, Croen K, Kress Y, Wittner M, Goldfischer S .....	8a
Gooch WM III: <i>See</i> Sotelo-Avila C, Gooch WM III, Castro R .....	41a
Good RA: <i>See</i> Tsakralkides V, Tsakralkides E, Good RA .....	7
Goodhue WW: <i>See</i> Wigger HJ, Goodhue WW .....	3a
Gotto AM: <i>See</i> Hoff HF, Heidman CL, Jackson RL, Titus JL, DeBakey ME, Gotto AM .....	63a
Gould VE, Jao W: Ultrastructure of postradiation thyroid carcinomas (January) .....	39a
Gould VE, Miller J, Jao W: Ultrastructure of medullary, intraductal, tubular and adenocystic breast carcinomas: Comparative patterns of myoepithelial differentiation and basal lamina deposition (March) .....	401
Graham DG, Tye R, McCarty KS Jr, Kemper LAK, Vogel FS: Mechanisms of action of antibiotic and antineoplastic quinoids from <i>Agaricus bisporus</i> (January) .....	43a
Graham DG: <i>See</i> Vogel FS, Kemper LAK, McGarry SJ, Graham DG .....	33
Graham DG: <i>See</i> Vogel FS, Kemper LAK, McGarry SJ, Graham DG .....	61a
Graham WG: <i>See</i> Brody AR, Davis GS, Landis JN, Graham WG, Craighead JE .....	8a
Grauman J: <i>See</i> Furth J, Chrétien M, Moy P, Grauman J .....	20a
Graw RG Jr: <i>See</i> Buja LM, Ferrans VJ, Graw RG Jr .....	31a
Greenberg LJ, Yunis EJ: Alterations in immune function in cancer patients (January) .....	26a
Greene WB: <i>See</i> Balentine JD, Greene WB .....	11a
Hackel DB: <i>See</i> Ratliff NB, Fuchs JC, Pickett JP, Hagen PO, Hackel DB .....	32a
Hackett RL, Coleman SE, Duggan J: Ultrastructure of the freeze-fractured nuclear envelope in relation to pH and renal ischemia (January) .....	52a
Hagen PO: <i>See</i> Ratliff NB, Fuchs JC, Pickett JP, Hagen PO, Hackel DB .....	32a
Hall LM: <i>See</i> Casey AE, McKernan B, Downey EL, Hall LM, Robinson T .....	47a
Hanawa Y: <i>See</i> Misugi K, Tsuchida M, Matsuyama K, Hanawa Y .....	2a
Hardwick DF, Vertinski JB: Attitudinal and organizational factors in ordering of laboratory tests (January) .....	5a
Haruda FA, Esterly JE: The fetal inflammatory response (January) .....	2a
Hass GM, Lee RE Jr, Kaiser JA: Production of severe cardiac and skeletal myopathy by interference with hepatoadrenal function (January) .....	33a

Hass GM: <i>See</i> Coogan PS, Kalin G, Ekbal S, Flanagan M, Hass GM .....	37a
Hass GM: <i>See</i> Lee RE Jr, Scott RA, Kedys M, Hass GM .....	35a
Hawkins HK: <i>See</i> Banks P, Bradford WW, Hawkins HK, Sidbury JB Jr .....	5a
Hawkins HK: <i>See</i> Mitchener JS, Hawkins HK, Bradford WD, Shelburne JD .....	44a
Hayashi T, Papla B, Stemmermann GN: Gastric organ culture: A model for reepithelialization (January) .....	23
Hayes KC, Rabin AR, Berson EL: An ultrastructural study of nutritionally induced and reversed retinal degeneration in cats (March) .....	505
Heather R: <i>See</i> Arquilla ER, Heather R, Schug W, Weringer EJ .....	65a
Heideman CL: <i>See</i> Hoff HF, Heideman CL, Jackson RL, Titus JL, DeBakey ME, Gotto AM .....	63a
Heppleston AG: ANIMAL MODEL OF HUMAN DISEASE: Pulmonary alveolar lipo-proteinosis (January) .....	171
Heptinstall RH, Salyer DC, Salyer WR: Experimental hypertension: The effects of chemical ablation of the renal papilla on the blood pressure of rats with and without silver-clip hypertension (February) .....	297
Hoening EM: <i>See</i> Levine S, Sowinski R, Hoening EM .....	319
Hoff HF, Heideman CL, Jackson RL, Titus JL, DeBakey ME, Gotto AM: Localization of plasma lipoproteins in human atherosclerotic lesions (January) .....	63a
Holley L: <i>See</i> Holley TR, Troup GM, Holley L .....	56a
Holley TR, Troup GM, Holley L: A search for splenic autoantigens to thymocytes in humans (January) .....	56a
Holmberg CA: <i>See</i> Osburn BI, Holmberg CA, Terrell TG, Sesline DH, Schwartz LW .....	54a
Hong R: <i>See</i> Gilchrist K, Gilbert EF, Hong R, Horowitz S .....	2a
Horger EO III: <i>See</i> Spear GS, Slusser RJ, Garvin J, Horger EO III, Bailey RP, Schneider JA .....	333
Horn RG: <i>See</i> Glick AD, Horn RG, Leech JH, Waldron JA, Flexner JM, Collins RD .....	39a
Horowitz S: <i>See</i> Gilchrist K, Gilbert EF, Hong R, Horowitz S .....	2a
Howes EL Jr: <i>See</i> Kalowski S, Howes EL Jr, Margaretten W, McKay DG .....	525
<i>See</i> Margaretten W, Howes EL Jr, McKay DG .....	159
Hsu FL: <i>See</i> Rodin AE, Hsu FL, Whortton EB .....	3a
Hsu I-C: <i>See</i> Allen JR, Hsu I-C .....	36a
Huff DS: Widespread cytomegaly in ataxia telangiectasis: A report of three patients (January) .....	1a
Huff DS, Valdes-Dapena M, Lischner HW: The ovaries in sixteen girls with DiGeorge syndrome (January) .....	1a
Huffer WE, Kuzela D, Popovtzer MM: Metabolic bone disease in chronic renal failure. I. Dialyzed uremics (March) .....	365
Huffer WE, Kuzela D, Popovtzer MM, Starzl TE: Metabolic bone disease in chronic renal failure. II. Renal transplant patients (March) .....	385
Hüttner I: <i>See</i> Gabbiani G, Hüttner I, Rona G .....	36a
Iannaccone P: <i>See</i> Jones DB, Iannaccone P .....	261
Insull W Jr: <i>See</i> Kidd JG, Insull W Jr .....	29a
Jackson RL: <i>See</i> Hoff HF, Heideman CL, Jackson RL, Titus JL, DeBakey ME, Gotto AM .....	63a
Jacobson SA: Polyhistioma: A pluripotential small round cell sarcoma of bone and soft tissue (January) .....	41a
Jao W: <i>See</i> Gould VE, Jao W .....	39a
Jao W: <i>See</i> Gould VE, Miller J, Jao W .....	401
Jasmin G, Mandalenakis N: Cytochemistry of intramitochondrial inclusions (January) .....	42a
Jeejeebhoy KN: <i>See</i> Phillips MJ, Oda M, Fisher MM, Jeejeebhoy KN .....	13a
Jennings RB: <i>See</i> Kloner RA, Reimer KA, Jennings, RB .....	33a
Jennings RB: <i>See</i> Kloner RA, Reimer KA, Willerson JT, Jennings RB .....	62a

Johnson HA, Wiske PS: Thermodynamic characteristics of cell injury by formaldehye (January) .....	43a
Jones DB: Myeloma nephropathy, a light chain storage disease (January) .....	49a
Jones DB, Iannaccone P: Atheromatous emboli in renal biopsies: An ultrastructural study (February) .....	261
Jones M: <i>See</i> Ferrens VJ, Jones M, Maron BJ, Roberts WC .....	427
Joris I, Underwood JM, Majno G: Cell-to-cell herniae in the vascular wall (January) .....	21a
Kaiser JA: <i>See</i> Hass GM, Lee RE Jr, Kaiser JA .....	33a
Kalin G: <i>See</i> Coogan PS, Kalin G, Ekbal S, Flanagan M, Hass GM .....	37a
Kalowski S, Howes EL Jr, Margaretten W, McKay DG: Effects of intravascular clotting on the activation of the complement system: The role of the platelet (March) .....	525
Karlson AG: William Hugh Feldman, DVM, 1892-1974 (January) .....	1
Katz J: <i>See</i> Chang LW, Dudley AW Jr, Katz J .....	14a
Katz J: <i>See</i> Chang LW, Dudley AW Jr, Lee YK, Katz J .....	225
Katzenstein A, Davis C, Braude A: Group B $\beta$ -hemolytic streptococcus: A cause of hyaline membrane disease? (January) .....	67a
Kedys M: <i>See</i> Lee RE Jr, Scott RA, Kedys M, Hass GM .....	35a
Kemper LAK: <i>See</i> Graham DG, Tye R, McCarty KS Jr, Kemper LAK, Vogel FS .....	43a
Kemper LAK: <i>See</i> Vogel FS, Kemper LAK, McGarry SJ, Graham DG, 33 .....	61a
Keysser CH: <i>See</i> Zaki FG, Keysser CH .....	11a
Kidd JG, Insull W Jr: Inhibition of growth, degeneration of microvilli, cytoplasmic lipidosis, and other alterations of HeLa cells incubated with oleate (January) .....	29a
Kilham L: <i>See</i> Margolis G, Kilham L .....	16a
Kisilevsky R: <i>See</i> Axelrad M, Kisilevsky R, Beswetherick S .....	277
Kitagawa T, Pitot HC: Immunohistochemical demonstration of serine dehydratase in rat liver (February) .....	309
Klinenberg JR: <i>See</i> Waisman J, Mwasi LM, Bluestone R, Klinenberg JR .....	48a
Klintworth GK: <i>See</i> Fromer C, Klintworth GK .....	22a
Klintworth GK: <i>See</i> Schwartz JN, Daniels CA, Klintworth GK .....	57a
Kloner RA, Reimer KA, Jennings RB: Distribution of local collateral flow after coronary occlusion in dogs: Effect of propranolol (January) .....	33a
Kloner RA, Reimer KA, Willerson JT, Jennings RB: Reduction of infarct size by mannitol during acute coronary occlusion in the dog (January) .....	62a
Knaack J: <i>See</i> Wang NS, Seemayer TA, Ahmed MN, Knaack J .....	69a
Koestner A: ANIMAL MODEL OF HUMAN DISEASE: Subacute sclerosing panencephalitis, multiple sclerosis (February) .....	361
Kousseff B: <i>See</i> Strauss L, Kousseff B, Beratis NG .....	4a

## CONTENTS FOR VOLUME 78, 1975

### January

- 1 William Hugh Feldman, DVM, 1892-1974  
*Alfred G. Karlson*
- 7 An Autopsy Study of Human Axillary Lymph Node Histology  
*Vasilis Tsakraklides, Evangelia Tsakraklides and Robert A. Good*
- 23 Gastric Organ Culture: A Model for Reepithelialization  
*T. Hayashi, B. Papla and G. N. Stemmermann*
- 33 Cytostatic, Cytocidal and Potential Antitumor Properties of a Class of Quinoid Compounds, Initiators of the Dormant State in the Spores of *Agaricus bisporus*  
*F. Stephen Vogel, Lieselotte A. K. Kemper, Sharon J. McGarry and Doyle G. Graham*
- 49 Leukemic Mitochondria. III. Acute Lymphoblastic Leukemia  
*H. R. Schumacher, I. E. Szekely and D. R. Fisher*
- 59 Ultrastructural Studies of Parallel Tubular Arrays in Human Lymphocytes  
*Richard D. Brunning and Janet Parkin*
- 71 The Role of the Macrophage in Wound Repair: A Study with Hydrocortisone and Antimacrophage Serum  
*S. J. Leibovich and Russell Ross*
- 101 The Pathology of Tangier Disease: A Light and Electron Microscopic Study  
*Victor J. Ferrans and Donald S. Fredrickson*
- 159 The Effect of Shock on the Inflammatory Response: A Reevaluation of the Role of Platelets in the Active Arthus Reaction  
*William Margaretten, Edward L. Howes Jr and Donald G. McKay*
- 171 Animal Model of Human Disease: Pulmonary Alveolar Lipo-proteinosis  
*A. G. Heppleston*
- 1a Joint Meeting of The American Association of Pathologists and Bacteriologists, and The Pediatric Pathology Club: Scientific Proceedings, 1975

### February

- 175 Human Atherosclerotic Plaque Cells and Leiomyoma Cells: Comparison of *In Vitro* Growth Characteristics  
*Ned S. Moss and Earl P. Benditt*
- 191 Particle-Free and Glycogen-Bearing Double Membrane Arrays in Extraocular Muscle of Rabbit  
*Jacob Davidowitz, Gloria H. Philips, Bruce R. Pachter and Goodwin M. Breinin*
- 199 Spontaneous Aortic Aneurysms in Blotchy Mice  
*Edwin J. Andrews, William J. White and Leslie P. Bullock*
- 211 Regulation of Spleen Growth and Portal Pressure in Hepatic Schistosomiasis  
*Allan E. Dumont, Frederick F. Becker, Kenneth S. Warren and Amalia B. Martelli*
- 225 Ultrastructural Changes in the Kidney Following Chronic Exposure to Low Levels of Halothane  
*Louis W. Chang, Alden W. Dudley Jr, Young K. Lee and Jordan Katz*

- 243 Capillary Density in Developing and Healing Tuberculous Lesions Produced by BCG in Rabbits: A Quantitative Study  
*Elpiniki T. Courtade, Tomiyasu Tsuda, Christopher R. Thomas and Arthur M. Dannenberg Jr*
- 261 Atheromatous Emboli in Renal Biopsies: An Ultrastructural Study  
*David B. Jones and Philip Iannaccone*
- 277 Acceleration of Amyloidosis by Syngeneic Spleen Cells from Normal Donors  
*Michael Axelrad, Robert Kisilevsky and Sandra Beswetherick*
- 285 Effects of Renal Lymphatic Occlusion and Venous Constriction on Renal Function  
*J. Stolarczyk and F. A. Carone*
- 297 Experimental Hypertension: The Effects of Chemical Ablation of the Renal Papilla on the Blood Pressure of Rats With and Without Silver-Clip Hypertension  
*Robert H. Heptinstall, Diane C. Salyer and William R. Salyer*
- 309 Immunohistochemical Demonstration of Serine Dehydratase in Rat Liver  
*Tomoyuki Kitagawa and Henry C. Pitot*
- 319 Nuclear Bodies Produced in Astrocytes by Tilorone  
*Seymour Levine, Richard Sowinski and Eugene M. Hoenig*
- 333 A Cytoplasmic Body in Human Fetal Endothelium  
*Gerald S. Spear, Ruby J. Slusser, Julian Garvin, Edgar O. Horger III, Raymond P. Bailey and Jerry A. Schneider*
- 343 An Analysis of the Phagocytic Potential of Multinucleate Foreign Body Giant Cells  
*J. M. Papadimitriou, T. A. Robertson and M. N-I. Walters*
- 359 Seventy-first Annual Meeting, The American Association of Pathologists and Bacteriologists: Business Meeting
- 361 Animal Model of Human Disease: Subacute Sclerosing Panencephalitis, Multiple Sclerosis  
*A. Koestner*

### March

- 365 Metabolic Bone Disease in Chronic Renal Failure. I. Dialyzed Uremics  
*W. E. Huffer, D. Kuzela and M. M. Popovtzer*
- 385 Metabolic Bone Disease in Chronic Renal Failure. II. Renal Transplant Patients  
*W. E. Huffer, D. Kuzela, M. M. Popovtzer and T. E. Starzl*
- 401 Ultrastructure of Medullary, Intraductal, Tubular and Adenocystic Breast Carcinomas: Comparative Patterns of Myoepithelial Differentiation and Basal Lamina Deposition  
*Victor E. Gould, Jacqueline Miller and Wellington Jao*
- 417 Acute Newcastle Viral Infection of the Upper Respiratory Tract of the Chicken. II. The Effect of Diets Deficient in Vitamin A on the Pathogenesis of the Infection  
*F. B. Bang, B. G. Bang and M. Foard*
- 427 The Nuclear Membranes in Hypertrophied Human Cardiac Muscle Cells  
*Victor J. Ferrans, Michael Jones, Barry J. Maron and William C. Roberts*
- 461 Ultrastructure of Inclusions in Peripheral Blood Mononuclear Cells in Sarcoidosis  
*Richard W. Belcher, Beate M. Czarnetzki and P. Bruce Campbell*
- 469 Coagulation Changes in Baboons During Acute Experimental Hemoglobinemia and Dextran Infusion  
*Jesse I. Spector, J. Eugene Lang and William H. Crosby*
- 477 Adaptive Changes in Muscle Fibers Infected with *Trichinella spiralis*  
*Dickson Despommier*

- 497 Lipid Accumulation in Smooth Muscle Cell Lysosomes in Primate Atherosclerosis  
*Sidney Goldfischer, Bernice Schiller and Harvey Wolinsky*
- 505 An Ultrastructural Study of Nutritionally Induced and Reversed Retinal Degeneration in Cats  
*K. C. Hayes, Arnold R. Rabin and Eliot L. Berson*
- 525 Effects of Intravascular Clotting on the Activation of the Complement System: The Role of the Platelet  
*Steven Kalowski, Edward L. Howes Jr, William Margarett and Donald G. McKay*
- 537 **Animal Model of Human Disease:** Diabetes Mellitus (Juvenile- and Maturity-Onset Types)  
*John E. Craighead*

AUTHOR

CONTENTS FOR VOLUME 79

# Index of Subjects

Volume 79, 1975

- Adenosine diphosphate**  
and platelet aggregation, 81
- Adenosine monophosphate, cyclic**  
and hormone secretion, 170
- Adrenal gland**  
catecholamine secretion by, 170
- Aging**  
and dermal elastin, 481  
and temporal artery alterations, 57
- Animal Models of Human Disease**  
cholelithiasis, 619  
corneal vascularization, 537  
cytomegalovirus infection, 509  
Ehlers-Danlos syndrome, 383  
hemorrhagic pancreatitis with fat necrosis, 465  
Hirschsprung's disease, 189  
hyperacute renal allograft rejection, 31  
malakoplakia, 453  
neoplastic neuroepithelial differentiation, 147
- Aorta**  
restitution of wall after injury, 7
- Arteritis**  
giant cell, temporal artery alterations in, 57
- Atherosclerosis**  
and cellular role in aortic wall restitution, 7  
and temporal artery alterations, 57
- Blood-brain barrier**  
and glucose uptake in thiamine deficiency, 107
- Bone marrow**  
in cytomegalovirus infection, 481  
microperoxisomes in cells of, 523
- Brain**  
edema of, postmortem changes in, 555
- Brainstem**  
glucose uptake in, in thiamine deficiency, 107
- Calcification**  
of rachitic cartilage, 237
- Calcium**  
and hormone secretion, 170  
in liver, galactosamine affecting, 579
- Carotid bodies**  
hypoxia affecting Type I cells in, 311
- Cartilage**  
rachitic, calcification of, 237
- Catalase**  
in erythroblast granules, 523
- Catecholamines**  
secretion by adrenal medulla, 170
- Caveola**  
and vesicles in erythrocyte plasma-lemma, in malaria, 285
- Cells**  
cardiac muscle cells in cardiac hypertrophy, 387  
leukocyte role in corneal vascularization, 537  
liver cell death from galactosamine, 579  
membrane studies (*see* membranes)  
microperoxisomes in erythrocytes, 523  
in pulmonary inflammatory response, 119  
radiosensitivity of lymphocytes, 499  
ribosome-lamella complexes in, 565  
role in aortic wall restitution, 7  
Type I cells in carotid bodies, hypoxia affecting, 311
- Central nervous system**  
encephalopathy from parainfluenza virus, 335  
experimental embryonal tumors of, 147  
glucose uptake in brainstem, in thiamine deficiency, 107  
postmortem changes in cerebral edema, 555
- Cholelithiasis**  
animal model of, 619
- Choline deficiency**  
and ethionine-induced pancreatitis, 465
- Chorioallantois**  
grafts to, vascularization of, 597
- Coagulation**  
clotting factors in hyperacute renal allograft rejection, 31  
disseminated intravascular, in host-versus-graft syndrome, 131
- Cornea**  
vascularization of, 537
- Cytochalasin B**  
and endocrine secretion, 170
- Cytomegalovirus infection**  
murine, 509
- Diet** (*see* nutrition)
- Edema**  
cerebral, 555

- Ehlers-Danlos syndrome**  
animal model of, 383
- Elastin**  
dermal, 481
- Electron microscopy**  
of cardiac muscle cells in cardiac hypertrophy, 387  
of dermal elastin, 481  
of encephalopathy from parainfluenza virus, 335  
of glomerulosclerosis in nephrectomized rats, 95  
of myocardial zonal lesions, 321  
of ribosome-lamella complexes in neoplastic cells, 565  
of temporal arteries, 57
- Emiocytesis**  
mechanisms in, 172
- Encephalopathy**  
from parainfluenza virus, 335
- Endocrinology**  
hormone formation, release and transport, 170  
multihormonal pancreatic tumors, 271
- Enzymes**  
lysosomal, in ischemic myocardium, 193
- Epidermis**  
response to damage in hairless mice, 301
- Erythrocytes**  
microperoxisomes in, 523  
plasmalemma in malaria, 285
- Ethionine**  
and pancreatitis induction, 465
- Fat necrosis**  
with hemorrhagic pancreatitis, 465
- Fibrin**  
intravascular deposits in host-versus-graft syndrome, 131
- Fibrinolysis**  
in hyperacute renal allograft rejection, 42
- Galactosamine**  
liver cell death from, 579
- Gallstones**  
animal model of, 619
- Glomerulosclerosis**  
in nephrectomized rats, 95
- Glucose**  
uptake in brainstem, in thiamine deficiency, 107
- Grafts (see transplants)**
- Granulocytes**  
role in aortic wall restitution, 16
- Granulomas**  
in schistosomiasis, deficiency states affecting, 435
- Growth**  
retardation in cytomegalovirus infection, 509
- Hairless mice**  
wound healing in, 301
- Hansmann cells**  
in malakoplakia, 453
- Heart**  
hypertrophy of, cardiac muscle cells in, 387  
lysosomes in ischemic myocardium, 193  
membrane permeability in ischemic myocardium, 207  
myocardial zonal lesions in, 321
- Hirschsprung's disease**  
animal model of, 189
- Hormones**  
formation, release, and transport of, 170  
multihormonal pancreatic tumors, 271
- Host-versus-graft syndrome**  
disseminated intravascular coagulation in, 131
- Hypoxia**  
affecting Type I cells in carotid bodies, 311
- Immune complexes**  
in host-versus-graft syndrome, 131
- Immune deficiency**  
and cytomegalovirus infection, 509
- Immune deposits**  
subepithelial, and glomerular basement membrane changes, 219
- Immune response**  
in virus-induced encephalopathy, 335
- Immunologic enhancement**  
of renal allografts, 255
- Inflammatory response**  
pulmonary, 119
- Insulin**  
secretion by beta cells, 170
- Ischemia, myocardial**  
lysosome activity in, 193  
membrane permeability in, 207
- Kallikrein levels**  
in hyperacute renal allograft rejection, 44
- Kidney**  
basement membrane changes with subepithelial deposits, 219  
glomerulosclerosis in nephrectomized rats, 95  
hyperacute allograft rejection, 31  
immunologic enhancement of allografts, 255  
malakoplakia of, experimental, 453

- Lanthanum**  
as marker for membrane permeability, in ischemic myocardium, 207
- Leukemia**  
and ribosome-lamella complexes in cells, 565
- Leukocytes**  
role in corneal vascularization, 537
- Liver**  
galactosamine-induced cell injury in, 579  
infarcts in host-versus-graft syndrome, 131
- Lungs**  
focal inflammatory response in, 119  
lymphangiomyomatosis of, 348
- Lymphangiomyomatosis**  
pulmonary, 348
- Lymphocytes**  
radiosensitivity of, 499
- Lymphoid cells**  
necrosis in cytomegalovirus infection, 509
- Lysosomes**  
activity in ischemic myocardium, 193
- Malakoplakia**  
experimental induction of, 453
- Malaria**  
erythrocyte plasmalemma in, 285
- Megacolon**  
aganglionic, animal model of, 189
- Membranes**  
caveolar-vesicle complexes in, in malaria, 285  
changes from galactosamine, in liver, 579  
permeability in ischemic myocardium, 207  
receptor sites on, and hormone secretion, 179
- Michaelis-Gutmann bodies**  
in malakoplakia, 453
- Microperoxisomes**  
in erythrocytes, 523
- Monocytes**  
role in aortic wall restitution, 17
- Moon, Henry D., 1**
- Myocardium**  
ischemic  
lysosome activity in, 193  
membrane permeability in, 207  
zonal lesions in, 321
- Myofibrils**  
lysis in degenerated cardiac muscle cells, 384
- Necrosis**  
fat, with hemorrhagic pancreatitis, 465
- lymphoid cell, in cytomegalovirus infection, 509
- Neoplasia**  
multihormonal pancreatic tumors, 271  
neural differentiation in teratomas, 147  
and ribosome-lamella complexes in cells, 565  
and vascularization of tissue grafts to chorioallantois, 597
- Nervous system** (*see* central nervous system)
- 5'-Nucleotidase**  
activity in plasma membranes, after galactosamine, 579
- Nutrition**  
corneal vascularization in vitamin deficiencies, 537  
deficiency states and granuloma formation in schistosomiasis, 435  
ethionine with choline-deficient diet, affecting pancreas, 465  
glucose uptake in brainstem in thiamine deficiency, 107
- Oxygen deficiency**  
affecting Type I cells in carotid bodies, 311
- Pancreas**  
insulin secretion by beta cells, 170  
multihormonal tumors of, 271
- Pancreatitis**  
hemorrhagic, with fat necrosis, 465
- Parainfluenza virus**  
encephalopathy from, 335
- Permeability**  
membrane, in ischemic myocardium, 207
- Peroxisomes**  
in erythrocytes, 523
- Peyer's patches**  
in cytomegalovirus infection, 509
- Plasma membranes** (*see* membranes)
- Platelets**  
role in aortic wall restitution, 16  
separation from plasma by ADP-induced aggregation, 81
- Protein**  
deficiency of, and granulomas in schistosomiasis, 435
- Radiosensitivity**  
of lymphocytes, 499
- Riboflavin**  
deficiency of, corneal vascularization in, 537
- Ribosome-lamella complexes**  
in neoplastic cells, 565

- Rickets**  
calcification of cartilage in, 237
- Schistosomiasis**  
granuloma formation in, deficiency states affecting, 435
- Schüffner's dots**  
structures related to, 285
- Sclerosis**  
glomerular, in nephrectomized rats, 95
- Shock**  
hypovolemic, myocardial zonal lesions in, 321
- Skin**  
elastic fibers in, 481  
wound healing in hairless mice, 301
- Spleen**  
in cytomegalovirus infection, 509
- Sweat glands**  
adventitial elastin fibrils in, 481
- Temporal arteries**  
microscopy of alterations in, 57
- Teratoma**  
neural differentiation in, 147
- Thiamine**  
deficiency of, and glucose uptake in brainstem, 107
- Thrombocytopenia**  
in host-versus-graft syndrome, 131
- Thymus**  
atrophy in cytomegalovirus infection, 509
- Thyroid hormone**  
formation and release of, 170
- Transplants**  
enhanced renal allografts, 255  
hyperacute renal allograft rejection, 31  
tissues grafted to chorioallantois, 597
- Tumors (see neoplasia)**
- Uridine**  
and galactosamine-induced membrane alterations, 579
- Vascularization**  
corneal, leukocyte role in, 537  
of grafts to chick chorioallantois, 597
- Vesicles**  
and caveola in erythrocyte plasmalemma, in, malaria, 285  
in rachitic cartilage matrix, 237
- Viruses**  
murine cytomegalovirus infection, 509  
parainfluenza-virus-induced encephalopathy, 335
- Vitamins**  
corneal vascularization in deficiency states, 537  
glucose uptake in brainstem in thiamine deficiency, 107  
granuloma formation in schistosomiasis, in deficiency states, 435
- Wound healing**  
in hairless mice, 301

## Index of Authors

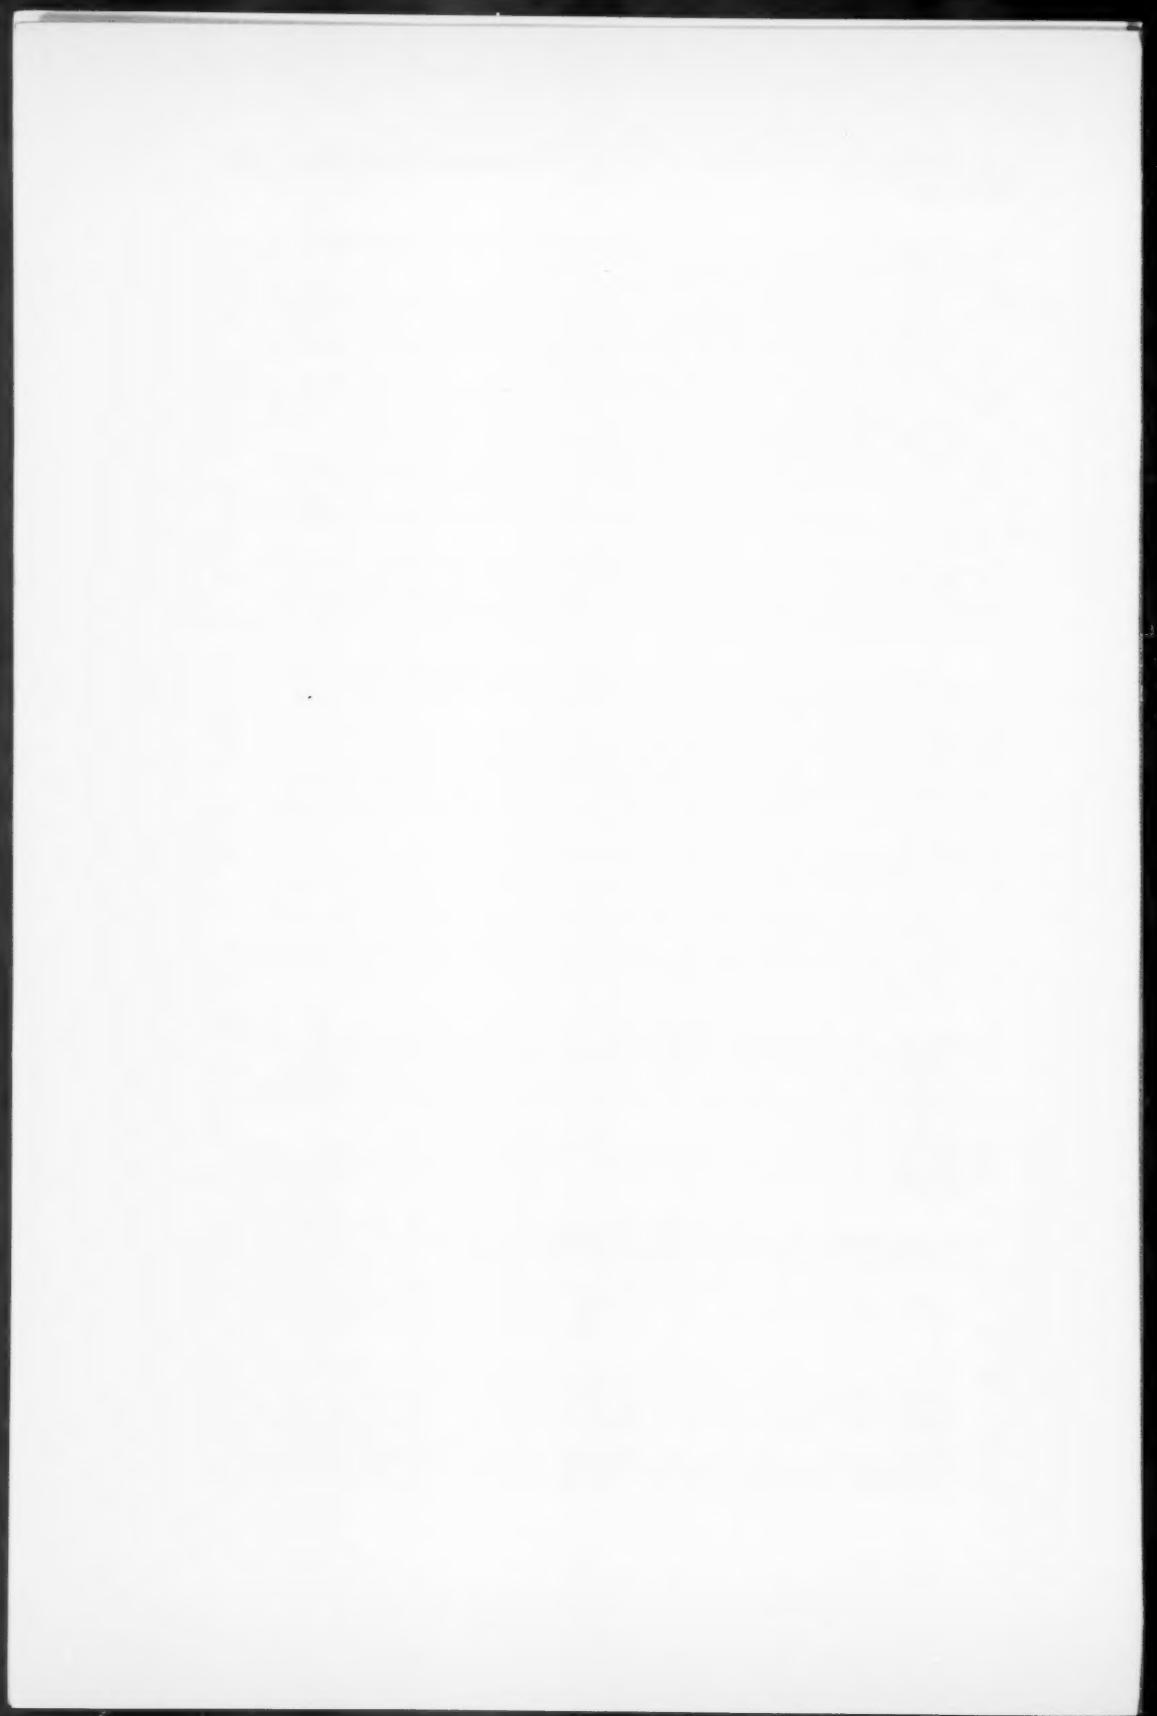

Volume 79, 1975

Abbas AK, Corson JM, Carpenter CB, Strom TB, Merrill JP, Dammin GJ: Immunologic enhancement of rat renal allografts. III. Immunopathologic lesions and rejection in long-surviving passively enhanced grafts (May) .....	255
Aikawa M, Miller LH, Rabbege J: Caveola-vesicle complexes in the plasma-lemma of erythrocytes infected by <i>Plasmodium vivax</i> and <i>P cynomolgi</i> : Unique structures related to Schüffner's dots (May) .....	285
Akpom CA, Warren KS: The inhibition of granuloma formation around <i>Schistosoma mansoni</i> eggs. VI. Protein, calorie, and vitamin deficiency (June) .....	435
Anderson HC, Cecil R, Sajdera SW: Calcification of rachitic rat cartilage <i>in vitro</i> by extracellular matrix vesicles (May) .....	237
Anderson RE: See Nichols WS, Troup GM, Anderson RE .....	499
Angervall L: See Larsson LI, Grimelius L, Håkanson R, Rehfeld JF, Stadil F, Holst J, Angervall L, Sundler F .....	271
Argyris TS, Kurman M: The proliferative response of epidermis of hairless mice to full thickness wounds (May) .....	301
Ausprunk DH, Knighton DR, Folkman J: Vascularization of normal and neoplastic tissues grafted to the chick chorioallantois: Role of host and pre-existing graft blood vessels (June) .....	597
Bignami A: See Vandenberg SR, Herman MM, Ludwin SK, Bignami A, ....	147
Bolande RP: ANIMAL MODEL OF HUMAN DISEASE: Hirschsprung's disease, aganglionic or hypoganglionic megacolon (April) .....	189
Breton-Gorius, J, Guichard J: Fine structural and cytochemical identification of microperoxisomes in developing human erythrocyte cells (June) .....	523
Brissie RM: See Spicer SS, Brissie RM, Thompson NT .....	481
Brunning RD, Parkin J: Ribosome-lamella complexes in neoplastic hematopoietic cells (June) .....	565
Busch GJ, Martins ACP, Hollenberg NK, Wilson RE, Colman RW: A primate model of hyperacute renal allograft rejection (April) .....	31
Carpenter CB: See Abbas AK, Corson JM, Carpenter CB, Strom TB, Merrill JP, Dammin GJ .....	255
Cecil R: See Anderson HC, Cecil R, Sajdera SW .....	237
Colman RW: See Busch GJ, Martins ACP, Hollenberg NK, Wilson RE, Colman RW .....	31
Corrin B, Liebow AA, Friedman PJ: REVIEW ARTICLE: Pulmonary lymphangiomyomatosis (May) .....	348
Corson JM: See Abbas AK, Corson JM, Carpenter CB, Strom TB, Merrill JP, Dammin GJ .....	255
Cruz PT: See Ratliff NB, Kopelman RI, Goldner RD, Cruz PT, Hackel DB .....	321
Csapó Z, Kuthy E, Lantos J, Ormos J: Experimentally induced malakoplakia (June) .....	453
Dahlstrom MA: See Slauson DO, Dahlstrom MA, ....	119
Dammin GJ: See Abbas AK, Corson JM, Carpenter CB, Strom TB, Merrill JP, Dammin GJ .....	255
Daniels CA: See Schwartz JN, Daniels CA, Klintworth GK .....	509
El-Mofty SK, Scrutton MC, Serroni A, Nicolini C, Farber JL: Early, reversible plasma membrane injury in galactosamine-induced liver cell death (June) .....	579
Estes LW: See Lombardi B, Estes LW, Longnecker DS .....	465
Farber JL: See El-Mofty SK, Scrutton MC, Serroni A, Nicolini C, Farber JL .....	579
630	

Ferrans VJ: <i>See</i> Maron BJ, Ferrans VJ, Roberts WC .....	387
Folkman J: <i>See</i> Ausprung DH, Knighton DR, Folkman J .....	597
Fox AC: <i>See</i> Hoffstein S, Gennaro DE, Fox AC, Hirsch J, Streuli F, Weissmann G .....	207
Fox AC: <i>See</i> Hoffstein S, Gennaro DE, Weissman G, Hirsch J, Streuli F, Fox AC .....	193
Friedman PJ: <i>See</i> Corrin B, Liebow AA, Friedman PJ .....	348
Fromer CH, Klintworth GK: An evaluation of the role of leukocytes in the pathogenesis of experimentally induced corneal vascularization. I. Comparison of experimental models of corneal vascularization (June) .....	537
Gennaro DE: <i>See</i> Hoffstein S, Gennaro DE, Fox AC, Hirsch J, Streuli F, Weissmann G .....	207
Gennaro DE: <i>See</i> Hoffstein S, Gennaro DE, Weissmann G, Hirsch J, Streuli F, Fox AC .....	193
Glagov S, Ts'ao C: Restitution of aortic wall after sustained necrotizing transmural ligation injury: Role of blood cells and artery cells (April) .....	7
Goldner RD: <i>See</i> Ratliff NB, Kopelman RI, Goldner RD, Cruz PT, Hackel DB .....	321
Grimelius L: <i>See</i> Larsson LI, Grimelius L, Håkanson R, Rehfeld JF, Stadil F, Holst J, Angervall L, Sundler F .....	271
Guichard J: <i>See</i> Breton-Gorius J, Guichard J .....	523
Haas RA: <i>See</i> Robertson DM, Manz HJ, Haas RA, Meyers N .....	107
Hackel DB: <i>See</i> Ratliff NB, Kopelman RI, Goldner RD, Cruz PT, Hackel DB .....	321
Håkanson R: <i>See</i> Larsson LI, Grimelius L, Håkanson R, Rehfeld JF, Stadil F, Holst J, Angervall L, Sundler F .....	271
Hard RC Jr, Still WJS: Intravascular fibrin deposits, hepatic infarcts and thrombocytopenia in parent/F <sub>1</sub> mouse chimeras with host-versus-graft syndrome (April) .....	131
Healey LA: <i>See</i> Parker F, Healey LA, Wilske KR, Odland GF .....	57
Hegreberg GA: ANIMAL MODEL OF HUMAN DISEASE: Ehlers-Danlos syndrome (May) .....	383
Herman MM: <i>See</i> Vandenberg SR, Herman MM, Ludwin SK, Bignami A .....	147
Hirsch J: <i>See</i> Hoffstein S, Gennaro DE, Fox AC, Hirsch J, Streuli F, Weissmann G .....	207
Hirsch J: <i>See</i> Hoffstein S, Gennaro DE, Weissmann G, Hirsch J, Streuli F, Fox AC .....	193
Hoffstein S, Gennaro DE, Fox AC, Hirsch J, Streuli F, Weissmann G: Colloidal lanthanum as a marker for impaired plasma membrane permeability in ischemic dog myocardium (May) .....	207
Hoffstein S, Gennaro DE, Weissmann H, Hirsch J, Streuli F, Fox AC: Cytochemical and localization of lysosomal enzyme activity in normal and ischemic dog myocardium (May) .....	193
Hollenberg NK: <i>See</i> Busch GJ, Martins ACP, Hollenberg NK, Wilson RE, Colman RW .....	31
Holst J: <i>See</i> Larsson LI, Grimelius L, Håkanson R, Rehfeld JF, Stadil F, Holst J, Angervall L, Sundler F .....	271
Iwasaki Y: <i>See</i> Tanaka R, Iwasaki Y, Koprowski H .....	335
Kay JM: <i>See</i> Laidler P, Kay JM .....	311
Klintworth GK: <i>See</i> Fromer CH, Klintworth GK .....	537
Klintworth GK: <i>See</i> Schwartz JN, Daniels CA, Klintworth GK .....	509
Knighton DR: <i>See</i> Ausprung DH, Knighton DR, Folkman J .....	597
Kopelman RI: <i>See</i> Ratliff NB, Kopelman RI, Goldner RD, Cruz PT, Hackel DB .....	321
Koprowski H: <i>See</i> Tanaka R, Iwasaki Y, Koprowski H .....	335
Kurman M: <i>See</i> Argyris TS, Kurman M .....	301
Kuthy E: <i>See</i> Csapó Z, Kuthy E, Lantos J, Ormos J .....	453

Lacy PE: REVIEW ARTICLE: Endocrine secretory mechanisms (April) .....	170
Laidler P, Kay JM: The effect of chronic hypoxia on the number and nuclear diameter of Type I cells in the carotid bodies of rats (May) .....	311
Lantos J: See Csapó Z, Kuthy E, Lantos J, Ormos J .....	453
Larsson LI, Grimalius L, Håkanson R, Rehfeld JF, Stadil F, Holst J, Angervall L, Sundler F: Mixed endocrine pancreatic tumors producing several peptide hormones (May) .....	271
Liebow AA: See Corrin B, Liebow AA, Friedman PJ .....	348
Lofland HB: ANIMAL MODEL OF HUMAN DISEASE: Cholelithiasis (June) .....	619
Lombardi B, Estes LW, Longnecker DS: Acute hemorrhagic pancreatitis (massive necrosis) with fat necrosis induced in mice by DL-ethionine fed with a choline-deficient diet (June) .....	465
Longnecker DS: See Lombardi B, Estes LW, Longnecker DS .....	465
Ludwin SK: See Vandenberg SR, Herman MM, Ludwin SK, Bignami A .....	147
Manz HJ: See Robertson DM, Manz HJ, Haas RA, Meyers N .....	107
Maron BJ, Ferrans VJ, Roberts WC: Ultrastructural features of degenerated cardiac muscle cells in patients with cardiac hypertrophy (June) .....	387
Martins ACP: See Busch GJ, Martins ACP, Hollenberg NK, Wilson RE, Colman RW .....	31
Mason RG: See Mohammad SF, Reddick RL, Mason RG .....	81
Merrill JP: See Abbas AK, Corson JM, Carpenter CB, Strong TB, Merrill JP, Damin GJ .....	255
Meyers N: See Robertson DM, Manz HJ, Haas RA, Meyers, N .....	107
Miller LH: See Aikawa M, Miller LH, Rabbege J .....	285
Mohammad SF, Reddick RL, Mason RG: Characterization of human platelets separated from blood by ADP-induced aggregation (April) .....	81
Morrison AB: See Shimamura T, Morrison AB .....	95
Nichols WS, Troup GM, Anderson RE: Radiosensitivity of sensitized and non-sensitized human lymphocytes evaluated <i>in vitro</i> (June) .....	499
Nicolini C: See El-Mofty SK, Scrutton MC, Serroni A, Nicolini C, Farber JL .....	579
Odland GF: See Parker F, Healey LA, Wilske KR, Odland GF .....	57
Ormos J: See Csapó Z, Kuthy E, Lantos J, Ormos J .....	453
Pappius HM: See Yates AJ, Thelmo W, Pappius HM .....	555
Parker F, Healey LA, Wilske KR, Odland GF: Light and electron microscopic studies on human temporal arteries with special reference to alterations related to senescence, atherosclerosis and giant cell arteritis (April) .....	57
Parkin J: See Brunning RD, Parkin J .....	565
Rabbege J: See Aikawa M, Miller LH, Rabbege J .....	285
Ratliff NB, Kopelman RI, Goldner RD, Cruz PT, Hackel DB: Formation of myocardial zonal lesions (May) .....	321
Reddick RL: See Mohammad SF, Reddick, RL, Mason RG .....	81
Rehfeld JF: See Larsson LI, Grimalius L, Håkanson R, Rehfeld JF, Stadil F, Holst J, Angervall L, Sundler F .....	271
Roberts WC: See Maron BJ, Ferrans VJ, Roberts WC .....	387
Robertson DM, Manz HJ, Haas RA, Meyers N: Glucose uptake in the brain-stem of thiamine-deficient rats (April) .....	107
Sajdera SW: See Anderson HC, Cecil R, Sajdera SW .....	237
Schwartz JN, Daniels CA, Klintworth GK: Lymphoid cell necrosis, thymic atrophy, and growth retardation in newborn mice inoculated with murine cytomegalovirus (June) .....	509
Scrutton MC: See El-Mofty SK, Scrutton MC, Serroni A, Nicolini C, Farber JL .....	579
Serroni A: See El-Mofty SK, Scrutton MC, Serroni A, Nicolini C, Farber JL .....	579

Shimamura T, Morrison AB: A progressive glomerulosclerosis occurring in five-sixths partial nephrectomized rats (April) .....	95
Skrifvars B: <i>See</i> Törnroth T, Skrifvars B .....	219
Slauson DO, Dahlstrom MA: The pulmonary inflammatory response: Cellular events in experimental pulmonary arterial hypersensitivity disease (April) .....	119

PATHOLOGISTS AND BACTERIOLOGISTS

THE AMERICAN SOCIETY FOR  
EXPERIMENTAL PATHOLOGY

---

Volume 79, 1975

(April through June)

## BOARD OF EDITORS

Thomas D. Kinney, *Editor-in-Chief*

Donald B. Hackel, *Associate Editor*

Orville T. Bailey	John B. Hazard
Carl G. Becker	Robert H. Heptinstall
Frederick F. Becker	Paul Kotin
Baruj Benacerraf	Averill A. Liebow
Kurt Benirschke	Guido Majno
Colin Bloor	Reginald G. Mason
Joel G. Brunson	Donald G. McKay
John R. Carter	Councilman Morgan
Charles G. Cochrane	Henry C. Pitot
John M. Craig	Goetz W. Richter
Frank J. Dixon, Jr.	David T. Rowlands, Jr.
John T. Ellis	Edward A. Smuckler
Emmanuel Farber	Leon Sokoloff
Frank W. Fitch	Benjamin H. Spargo
Patrick J. Fitzgerald	Lewis Thomas
David G. Freiman	Jacinto J. Vazquez
Jack C. Geer	F. Stephen Vogel
Gabriel Godman	

*Editorial Assistant: Virginia Hotelling*

## CONTENTS FOR VOLUME 79, 1975

### April

- 1 Henry D. Moon, 1914-1974  
*Harold L. Stewart*
- 7 Restitution of Aortic Wall After Sustained Necrotizing Transmural  
Ligation Injury: Role of Blood Cells and Artery Cells  
*Seymour Glagov and Chung-hsin Ts'ao*
- 31 A Primate Model of Hyperacute Renal Allograft Rejection  
*George J. Busch, Antonio C. P. Martins, Norman K. Hollenberg, Richard E. Wilson and Robert W. Colman*
- 57 Light and Electron Microscopic Studies on Human Temporal Arteries With  
Special Reference to Alterations Related to Senescence, Atherosclerosis  
and Giant Cell Arteritis  
*Frank Parker, L. A. Healey, Kenneth R. Wiliske and George F. Odland*
- 81 Characterization of Human Platelets Separated From Blood by ADP-Induced  
Aggregation  
*S. Fazal Mohammad, R. L. Reddick and R. G. Mason*
- 95 A Progressive Glomerulosclerosis Occurring in Partial Five-sixths  
Nephrectomized Rats  
*Tetsuo Shimamura and Ashton B. Morrison*
- 107 Glucose Uptake in the Brainstem of Thiamine-Deficient Rats  
*D. M. Robertson, H. J. Manz, R. A. Haas and N. Meyers*
- 119 The Pulmonary Inflammatory Response: Cellular Events in Experimental  
Pulmonary Arterial Hypersensitivity Disease  
*David O. Slauson and Martha A. Dahlstrom*
- 131 Intravascular Fibrin Deposits, Hepatic Infarcts and Thrombocytopenia in  
Parent/F<sub>1</sub> Mouse Chimeras With Host-Versus-Graft Syndrome  
*Richard C. Hard Jr and W. J. S. Still*
- 147 An Experimental Mouse Testicular Teratoma as a Model for Neuroepithelial  
Neoplasia and Differentiation. I. Light Microscopic and Tissue and  
Organ Culture Observations  
*S. R. Vandenberg, M. M. Herman, S. K. Ludwin and A. Bignami*
- 170 REVIEW ARTICLE: Endocrine Secretory Mechanisms  
*Paul E. Lacy*
- 189 Animal Model of Human Disease: Hirschsprung's Disease, Aganglionic or  
Hypoganglionic Megacolon  
*Robert P. Bolande*

### May

- 193 Cytochemical Localization of Lysosomal Enzyme Activity in Normal and Ischemic  
Dog Myocardium  
*Sylvia Hoffstein, Doris E. Gennaro, Gerald Weissmann, Jacob Hirsch, Fritz Streuli  
and Arthur C. Fox*

- 207 Colloidal Lanthanum as a Marker for Impaired Plasma Membrane Permeability in Ischemic Dog Myocardium  
*Sylvia Hoffstein, Doris E. Gennaro, Arthur C. Fox, Jacob Hirsch, Fritz Streuli and Gerald Weissmann*
- 219 The Development and Resolution of Glomerular Basement Membrane Changes Associated With Subepithelial Immune Deposits  
*Tom Törnroth and Bo Skrifvars*
- 237 Calcification of Rachitic Rat Cartilage *In Vitro* by Extracellular Matrix Vesicles  
*H. Clarke Anderson, Russell Cecil and Stanley W. Sajdera*
- 255 Immunologic Enhancement of Rat Renal Allografts. III. Immunopathologic Lesions and Rejection in Long-Surviving Passively Enhanced Grafts  
*A. K. Abbas, J. M. Corson, C. B. Carpenter, T. B. Strom, J. P. Merrill and G. J. Dammin*
- 271 Mixed Endocrine Pancreatic Tumors Producing Several Peptide Hormones  
*L.-I. Larsson, L. Grimmelius, R. Håkanson, J. F. Rehfeld, F. Stadil, J. Holst, L. Angervall and F. Sundler*
- 285 Caveola-Vesicle Complexes in the Plasmalemma of Erythrocytes Infected by *Plasmodium vivax* and *P. cynomolgi*: Unique Structures Related to Schüffner's Dots  
*Masamichi Aikawa, Louis H. Miller and John Rabbege*
- 301 The Proliferative Response of Epidermis of Hairless Mice to Full Thickness Wounds  
*Michael Kurman and Thomas S. Argyris*
- 311 The Effect of Chronic Hypoxia on the Number and Nuclear Diameter of Type I Cells in the Carotid Bodies of Rats  
*P. Laidler and J. M. Kay*
- 321 Formation of Myocardial Zonal Lesions  
*Norman B. Ratliff, Richard I. Kopelman, Richard D. Goldner, Patricia T. Cruz and Donald B. Hackel*
- 335 Experimental Parainfluenza-Type-1-Virus-Induced Encephalopathy in the Adult Mouse: An Ultrastructural Study of Early Lesions  
*Ryuichi Tanaka, Yuzo Iwasaki and Hilary Koprowski*
- 348 REVIEW ARTICLE: Pulmonary Lymphangiomyomatosis  
*Bryan Corrin, Averill A. Liebow and Paul J. Friedman*
- 383 Animal Model of Human Disease: Ehlers-Danlos Syndrome  
*G. A. Hegreberg*

#### June

- 387 Ultrastructural Features of Degenerated Cardiac Muscle Cells in Patients With Cardiac Hypertrophy  
*Barry J. Maron, Victor J. Ferrans, and William C. Roberts*
- 435 The Inhibition of Granuloma Formation Around *Schistosoma mansoni* Eggs. VI. Protein, Calorie, and Vitamin Deficiency  
*C. Amechi Akpom and Kenneth S. Warren*
- 453 Experimentally Induced Malakoplakia  
*Zsolt Csapó, Énikő Kuthy, Judit Lantos, and Jenö Ormos*
- 465 Acute Hemorrhagic Pancreatitis (Massive Necrosis) With Fat Necrosis Induced in Mice by DL-Ethionine Fed With a Choline-Deficient Diet  
*Benito Lombardi, Larry W. Estes, and Daniel S. Longnecker*
- 481 Variability of Dermal Elastin Visualized Ultrastructurally With Iron Hematoxylin  
*S. S. Spicer, R. M. Brissie, and N. T. Thompson*
- 499 Radiosensitivity of Sensitized and Nonsensitized Human Lymphocytes Evaluated *In Vitro*  
*W. Stephen Nichols, Gary M. Troup, and Robert E. Anderson*

- 509 Lymphoid Cell Necrosis, Thymic Atrophy, and Growth Retardation in Newborn Mice Inoculated With Murine Cytomegalovirus  
*Jared N. Schwartz, Charles A. Daniels, and Gordon K. Klintworth*
- 523 Fine Structural and Cytochemical Identification of Microperoxisomes in Developing Human Erythrocytic Cells  
*Janine Breton-Gorius and Josette Guichard*
- 537 An Evaluation of the Role of Leukocytes in the Pathogenesis of Experimentally Induced Corneal Vascularization. I. Comparison of Experimental Models of Corneal Vascularization  
*Carl H. Fromer and Gordon K. Klintworth*
- 555 Postmortem Changes in the Chemistry and Histology of Normal and Edematous Brains  
*A. J. Yates, W. Thelmo, and Hanna M. Pappius*
- 565 Ribosome-Lamella Complexes in Neoplastic Hematopoietic Cells  
*Richard D. Brunning and Janet Parkin*
- 579 Early, Reversible Plasma Membrane Injury in Galactosamine-Induced Liver Cell Death  
*Samir K. El-Mofty, Michael C. Scrutton, Ada Serroni, Claudio Nicolini, and John L. Farber*
- 597 Vascularization of Normal and Neoplastic Tissues Grafted to the Chick Chorioallantois: Role of Host and Preexisting Graft Blood Vessels  
*Dianna H. Ausprunk, David R. Knighton, and Judah Folkman*
- 619 Animal Model of Human Diseases: Cholelithiasis  
*Hugh B. Lofland*
- 
- 625 Index of Subjects, Volume 79
- 630 Index of Authors, Volume 79

# **INDEX**

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 80

# Index of Subjects

Volume 80, 1975

- Acid phosphatase**  
in pancreatic acinar cells, after ligation, 203  
in prostatic cells, 79
- Acinar cells**  
death after pancreatic ligation, 203
- ACTH**  
secretion by pituitary tumor, affecting adrenals, 295
- Actin filaments**  
in myocardial zonal lesions, 471
- Adenovirus infection**  
in horses, 551
- Adrenal glands**  
ACTH-producing pituitary tumor affecting, 295  
in Lassa virus infection, 268
- Agaricus bisporus**  
mitochondria role in cryptobiosis, 499
- Age**  
and incidence of sclerotic glomeruli, 227
- Amino acids**  
mitochondrial incorporation of, in cryptobiosis, 499
- Anemia**  
in feline erythropoietic porphyria, 367
- Animal models of human disease**  
biliary obstruction, chronic, 185  
combined immunodeficiency, 551  
cytomegalovirus-induced cerebral calcification, 555  
endometriosis, 341  
eosinophilic meningitis in angiostrongylosis, 341  
hepatitis, active chronic, 181  
hyperlipidemia and hypertension, 129  
Lassa virus infection, 261
- Anoxic perfusion**  
and irreversible myocardial injury *in vitro*, 419
- Arbovirus infection**  
immune cytolysis in, 91
- Biliary obstruction**  
animal model of, 185
- Blood pressure**  
new strain of obese hypertensive rats, 129
- Bone**  
in lead poisoning, 309
- Bone marrow**  
in feline erythropoietic porphyria, 374  
mast cells in, and phagocytosis of red cells, 481
- Brain**  
calcification from cytomegalovirus infection, 555  
in Lassa virus infection, 267
- Breast**  
Paget's disease of, 117
- Calcification**  
cerebral, in cytomegalovirus infection, 555
- Cancer (see neoplasia)**
- Carbohydrates**  
metabolism in obese hypertensive rats, 132
- Casein**  
cellular, in Paget's disease of breast, 117
- Chagas' disease**  
experimental, 163  
skeletal muscle in, 153
- Chondroclasts**  
lead inclusions in, 309
- Cirrhosis**  
glomerulonephritis with, 329
- Coagulation factors**  
in hyperacute renal allograft rejection, 8
- Complement**  
levels in hyperacute renal allograft rejection, 7
- Computer analysis**  
of irradiated lymphocytes, 21
- Critical mass**  
in hypothesis of liver regeneration, 519
- Cryptobiosis**  
mitochondria in, 499
- Cystic fibrosis**  
fibroblast plasma membrane proteins in, 317
- Cytokines**  
production in SV 40 infection, 69
- Cytolysis**  
immune, in arboviral infections, 91  
of target cells, lymphotoxin affecting, 247
- Cytomegalovirus**  
cerebral calcification from, 555
- Electron microscopy**  
of adrenal effects of ACTH-producing pituitary tumor, 295  
of bone cells in lead poisoning, 309  
of cell proliferation in regenerating liver, 349  
of feline erythropoietic porphyria, 374  
of iron-incubated HeLa cells, 38

- of lymph node microvasculature, 387  
of mast cell phagocytosis of red cells, 483  
of mitochondria in cryptobiosis, 499  
of myocardial injury from anoxic perfusion, 419  
of myocardial zonal lesions, 471  
of platelet changes from prostaglandin endoperoxides, 189  
of viral carcinogenesis in pronephric cell line, 143
- Encephalopathy**  
  methylmercurial, 451
- Endometriosis**  
  animal model of, 341
- Encoperoxides**  
  prostaglandin, affecting platelet ultrastructure, 189
- Endothelial cells**  
  proliferation in regenerating liver, 349
- Eosinophilic meningitis**  
  in angiostrongylosis, 341
- Erythrocytes**  
  mast cell phagocytosis of, 481  
  porphyrins in, in feline erythropoietic porphyria, 376
- Factor VIII**  
  levels in hyperacute renal allograft rejection, 9
- Ferritin**  
  in iron-enriched HeLa cells, 33  
  production in hepatoma cells, 235
- Fibroblasts**  
  plasma membrane proteins in cystic fibrosis, 317
- Genetics**  
  and tumor incidence, 539
- Glomerular sclerosis**  
  age-related incidence of, 227
- Glomerulonephritis**  
  cirrhosis with, 329
- Grafts**  
  renal allograft, hyperacute rejection in primates, 1
- Granules**  
  in mast cells, and phagocytosis of red cells, 481
- Granulomas**  
  epithelioid, mononuclear phagocytes in, 101  
  in schistosomiasis, 279
- Heart**  
  irreversible injury from anoxic perfusion *in vitro*, 419  
  in Lassa virus infection, 266
- myocardial zonal lesions, 471  
  in obese hypertensive rats, 135
- HeLa cells**  
  iron metabolism in, 33
- Hemosiderosis**  
  in feline erythropoietic porphyria, 374
- Heparin**  
  and renal allograft rejection, hyperacute, 1
- Hepatitis**  
  active chronic, animal model of, 181
- Hepatoma cells**  
  ferritin production in, 235
- Heredity**  
  and tumor incidence, 539
- Hypertension**  
  new strain of obese hypertensive rats, 129
- Immune cytolysis**  
  in arboviral infections, 91
- Immunodeficiency**  
  combined, in horses, 551
- Immunofluorescence studies**  
  in experimental Chagas' disease, 171  
  of feline erythropoietic porphyria, 372  
  of ferritin in hepatoma cells, 235  
  of glomerulonephritis with cirrhosis, 329  
  of Paget's disease of breast, 117  
  of parathyroiditis after ozone inhalation, 53  
  of renal allograft rejection, hyperacute, 6  
  of skeletal muscle in Chagas' disease, 153
- Immunology**  
  and pathobiology of neoplasia, 545
- Inclusions**  
  mast cell, and phagocytosis of red cells, 481
- Iron**  
  metabolism in HeLa cells, 33
- Jaundice**  
  obstructive, animal model of, 185
- Kallikrein**  
  levels in hyperacute renal allograft rejection, 10
- Kidney**  
  age-related glomerular sclerosis, 227  
  in erythropoietic porphyria, feline, 367  
  glomerulonephritis with cirrhosis, 329  
  hyperacute allograft rejection in primates, 1  
  in Lassa virus infection, 266  
  in obese hypertensive rats, 134  
  viral carcinogenesis in pronephric cell line, 143

- Kupffer cells**  
proliferation in regenerating liver, 349
- Lassa virus**  
experimental infection with, 261
- Lead poisoning**  
bone lesions in, 309
- Leukocytes**  
venous levels in hyperacute renal allograft rejection, 7
- Lipids**  
metabolism in obese hypertensive rats, 129
- Littoral cells**  
proliferation in regenerating liver, 349
- Liver**  
animal model of active chronic hepatitis, 181  
cell proliferation during regeneration, 349  
cirrhosis with glomerulonephritis, 329  
critical mass hypothesis of cell regeneration in, 519  
in feline erythropoietic porphyria, 374  
in Lassa virus infection, 267  
response to schistosome eggs in, 279
- Lungs**  
response to schistosome eggs in, 284
- Lymph nodes**  
in Lassa virus infection, 265  
mast cells in, and phagocytosis of red cells, 481  
microvasculature of, 387
- Lymphocytes**  
irradiated, computer analysis of, 21
- Lymphokine-like factors**  
production in SV 40 infection, 69
- Lymphotoxin**  
and RNA synthesis in target cells, 247
- Macrophages**  
migration inhibition in SV 40 infection, 69
- Malignancies (see neoplasia)**
- Marrow (see bone marrow)**
- Mast cells**  
phagocytosis of red cells, 481
- Membranes**  
fibroblast, in cystic fibrosis, 317
- Meningitis**  
eosinophilic, in angiostrongylosis, 341
- Mercurial poisoning**  
encephalopathy in, 451
- Microvasculature**  
lymph node, 387  
pulmonary, response to schistosome eggs in, 284
- Migration inhibition**  
macrophage, in SV 40 infection, 69
- Mitochondria**  
in cryptobiosis, 499
- Mononuclear phagocytes**  
differentiation of, 101  
proliferation in regenerating liver, 349
- Muscle**  
pathology in Chagas' disease, 153
- Mushrooms**  
mitochondria role in cryptobiosis, 499
- Mycobacterium tuberculosis**  
and mononuclear phagocyte differentiation, 101
- Myocardium**  
irreversible injury from anoxic perfusion *in vitro*, 419  
zonal lesions in, 471
- Myosin filaments**  
in myocardial zonal lesions, 471
- Neoplasia**  
ACTH-producing pituitary tumor  
affecting adrenals, 295  
cellular changes in, 532, 537  
enzyme systems of, 536  
etiology of, 536  
ferritin production in hepatoma cells, 235  
homeostatic mechanisms in, 541  
immune mechanisms in, 545  
metastasis of, 531  
morphology and behavior of, 530  
pathobiology of, teaching monograph of, 525  
progression of, 534  
viral carcinogenesis in pronephric cell line, 143
- Nervous system, central**  
in angiostrongylosis, 341  
cerebral calcification in cytomegalovirus infection, 555  
in Lassa virus infection, 267  
methylmercurial encephalopathy, 451
- Obese hypertensive rats**  
new strain of, 129
- Osteoclasts**  
lead inclusions in, 309
- Oxygen**  
and myocardial injury from anoxic perfusion, 419
- Ozone**  
parathyroiditis from inhalation of, 53
- Paget's disease**  
mammary and extramammary, 117
- Pancreas**  
acinar cell death after ligation, 203  
in Lassa virus infection, 268

- Parathyroiditis**  
from ozone inhalation, 53
- Permeability**  
of lymph node microvasculature, 387
- Phagocytes, mononuclear**  
differentiation of, 101  
proliferation in regenerating liver, 349
- Phagocytosis**  
of red cells by mast cells, 481
- Phosphatases (see acid phosphatase)**
- Pituitary gland**  
ACTH-producing tumor of, affecting adrenals, 295
- Plasminogen**  
levels in hyperacute renal allograft rejection, 10
- Platelets**  
count in hyperacute renal allograft rejection, 7  
prostaglandin endoperoxides affecting, 189
- Plumbism**  
bone lesions in, 309
- Poisoning (see toxic states)**
- Porphyria**  
erythropoietic, feline, 367
- Prostaglandins**  
endoperoxides of, affecting platelet ultrastructure, 189
- Prostate cells**  
separation of, 79
- Protein**  
in fibroblast plasma membrane, in cystic fibrosis, 317  
mitochondrial, in cryptobiosis, 499  
subunits of ferritin in hepatoma cells, 235
- Proteinuria**  
in obese hypertensive rats, 133
- Radiation injury**  
lymphocyte, computer analysis of, 21
- RNA synthesis**  
in lymphotoxin-treated target cells, 247
- Schistosomiasis**  
granulomas in, 279
- Sclerosis**  
glomerular, age-related, 227
- Shock**  
hypovolemic, myocardial zonal lesions in, 471
- Spleen**  
in feline erythropoietic porphyria, 374
- in Lassa virus infection, 265
- Sporulation**  
and mitochondrial energy production, 499
- Target cells**  
RNA synthesis in, lymphotoxin affecting, 247
- Teaching monograph**  
pathobiology of neoplasia, 525
- Toxic states**  
lead poisoning with bone lesions, 309  
mercurial poisoning with encephalopathy, 451
- Trypanosoma cruzi infection**  
experimental, 163  
skeletal muscle in, 153
- Tumors (see neoplasia)**
- Urine**  
porphyrins in, in feline erythropoietic porphyria, 376  
proteinuria in obese hypertensive rats, 133
- Vacuoles**  
in mast cells, and phagocytosis of red cells, 481
- Vasculation**  
in Lassa virus infection, 266  
lymph node microvasculature, 387  
in obese hypertensive rats, 136  
pulmonary, response to schistosome eggs in, 284
- Viruses**  
adenovirus infection in horses, 551  
and carcinogenesis in pronephric cell line, 143  
cytomegalovirus-induced cerebral calcification, 555  
experimental Lassa virus infection, 261  
immune cytosis in arboviral infections, 91  
murine biliary obstruction from reovirus Type 3, 185  
murine hepatitis from reovirus Type 3, 181  
SV 40-induced cytokine production, 69  
and tumor incidence, 539
- Zonal lesions**  
myocardial, 471

## CONTENTS FOR VOLUME 80, 1975

July

- 1 Hyperacute Renal Allograft Rejection in the Primate: Intrarenal Effects of Heparin and Associated Net Release of Factor VIII Activity and Kallikrein Activation  
*George J. Busch, Kunio Kobayashi, Norman K. Hollenberg, Alan G. Birtch, and Robert W. Colman*
- 21 Computer Analysis of Defined Populations of Lymphocytes Irradiated *In Vitro*. II. Analysis of Thymus-Dependent Versus Bone Marrow-Dependent Cells  
*Robert E. Anderson, George B. Olson, John L. Howarth, George L. Wied, and Peter H. Bartels*
- 33 Iron Metabolism and Cell Membranes. III. Iron-Induced Alterations in HeLa Cells  
*H. O. Jauregui, W. D. Bradford, A. U. Arstila, T. D. Kinney, and B. F. Trump*
- 53 A Possible Autoimmune Parathyroiditis Following Ozone Inhalation. II. A Histopathologic, Ultrastructural, and Immunofluorescent Study  
*O. S. Atwal, B. S. Samagh, and M. K. Bhatnagar*
- 69 Production of Lymphokine-Like Factors (Cytokines) by Simian Virus 40-Infected and Simian Virus 40-Transformed Cells  
*Pierluigi E. Bigazzi, Takeshi Yoshida, Peter A. Ward, and Stanley Cohen*
- 79 Separation of Cells With Histochemically Demonstrable Acid Phosphatase Activity From Suspensions of Human Prostatic Cells in an Isokinetic Gradient of Ficoll in Tissue Culture Medium  
*Sherron R. Helms, Febe I. Brazeal, Anton J. Bueschen, and Thomas G. Pretlow II*
- 91 The Influence of Arboviral Infection on the Susceptibility of Cultured Cells to Immune Injury *In Vitro*  
*Phillip J. Catanzaro, Walter E. Brandt, and Philip K. Russell*
- 101 The Structure of Mononuclear Phagocytes Differentiating *In Vivo*. II. The Effect of *Mycobacterium tuberculosis*  
*Dolph O. Adams*
- 117 Mammary and Extramammary Paget's Disease: An Immunocytochemical Study  
*G. Bussolati and A. Pich*
- 129 Pathologic Findings and Laboratory Data in a New Strain of Obese Hypertensive Rats  
*Simon Koletsky*
- 143 Viral Carcinogenesis in a Pronephric Cell Line: An Ultrastructural Study  
*Wai Y. Wong and Kenyon S. Tweedell*
- 153 Immunopathologic and Morphologic Studies of Skeletal Muscle in Chagas' Disease  
*Ruben P. Laguens, Patricio M. Cossio, Carlos Díez, Amada Segal, Cesar Vasquez, Eduardo Kreutzer, Emilio Khoury, and Roberto M. Arana*
- 163 The Immunology of Experimental Chagas' Disease. IV. Production of Lesions in Rabbits Similar to Those of Chronic Chagas' Disease in Man  
*Antonio R. L. Teixeira, M. Lucía Teixeira, and Charles A. Santos-Buch*
- 181 Animal Model of Human Disease: Active Chronic Hepatitis  
*Neville F. Stanley and R. A. Joske*
- 185 Animal Model of Human Disease: Chronic Biliary Obstruction  
*Neville F. Stanley and R. A. Joske*

## August

- 189 The Influence of Prostaglandin Endoperoxides on Platelet Ultrastructure  
*Jonathan M. Gerrard and James G. White*
- 203 The Course and Nature of Acinar Cell Death Following Pancreatic Ligation in the Guinea Pig  
*Joseph D. Zeligs, Aaron Janoff, and Allan E. Dumont*
- 227 Age-Related Incidence of Sclerotic Glomeruli in Human Kidneys  
*Cynthia Kaplan, Bernard Pasternack, Hansa Shah, and Gloria Gallo*
- 235 Production of Ferritin by Rat Hepatoma Cells *In Vitro*: Demonstration of Protein Subunits and Ferritin by Immunofluorescence  
*J. C. K. Lee, S. S. C. Lee, K. J. Schlesinger, and G. W. Richter*
- 249 Alterations in RNA Synthesis in Lymphotoxin-Treated Target Cells  
*G. Kumitomi, W. Rosenau, G. C. Burke, and M. L. Goldberg*
- 261 Experimental Lassa Virus Infection in the Squirrel Monkey  
*David H. Walker, Herta Wulff, and Frederick A. Murphy*
- 279 The *Schistosoma japonicum* Egg Granuloma  
*Kenneth S. Warren, Dov L. Boros, Le Minh Hang, and Adel A. F. Mahmoud*
- 295 Quantitative Study on the Effect of an ACTH-Producing Pituitary Tumor on the Ultrastructure of the Mouse Adrenal Gland  
*Peter A. Nickerson*
- 309 The Lead Line in Bone—A Lesion Apparently Due to Chondroclastic Indigestion  
*Rueben Eisenstein and Setsuo Kawanoue*
- 317 Studies on the Synthesis of Plasma Membrane Proteins of Fibroblasts From Patients With Cystic Fibrosis  
*James E. Changus, David O. Quissell, Mary R. Sukup, and Henry C. Pitot*
- 329 Immune Complex Type Glomerulonephritis in Cirrhosis of the Liver  
*P. Callard, G. Feldmann, D. Prandi, M. F. Belair, C. Mandet, Y. Weiss, P. Druet, J. P. Benhamou, and J. Bariety*
- 341 Animal Model of Human Disease: Endometriosis  
*William F. MacKenzie and Harold W. Casey*
- 345 Animal Model of Human Disease: Central Nervous Infection With the Nematode *Angiostrongylus cantonensis*  
*David T. John and A. Julio Martinez*

## September

- 349 Proliferation of Mononuclear Phagocytes (Kupffer Cells) and Endothelial Cells in Regenerating Rat Liver; A Light and Electron Microscopic Cytochemical Study  
*Jean-Jacques Widmann and H. Dariush Fahimi*
- 367 Feline Congenital Erythropoietic Porphyria Associated With Severe Anemia and Renal Disease: Clinical, Morphologic, and Biochemical Studies.  
*W. Ellis Giddens, Jr., Robert F. Labbe, Larry J. Swango, and George A. Padgett*
- 387 Studies on the Structure and Permeability of the Microvasculature in Normal Rat Lymph Nodes  
*Arthur O. Anderson and Norman D. Anderson*

- 419** Irreversible Myocardial Injury in Anoxic Perfused Rat Hearts  
*Charles E. Ganote, Ricardo Seabra-Gomes, Winifred G. Nayler, and Robert B. Jennings*
- 451** Variability of Neuropathologic Lesions in Experimental Methylmercurial Encephalopathy in Primates  
*Cheng-Mei Shaw, N. Karle Mottet, Ralph L. Boddy, and Erich S. Luscher*
- 471** The Relationship of Actin and Myosin Filaments Within Myocardial Zonal Lesions  
*Stephen W. Unger and Norman B. Ratliff*
- 481** Mast Cell Phagocytosis of Red Blood Cells  
*S. S. Spicer, J. A. V. Simson, and J. E. Farrington*
- 499** Concerning the Role of Mitochondria in Cryptobiosis  
*F. Stephen Vogel, Kenneth S. McCarty, Jr., Doyle G. Graham, and Lieselotte A. K. Kemper*
- 519** Critique of the "Critical Mass" Hypothesis of the Regeneration of Liver Cells  
*J. Tongendorff, R. Trebin, and G. Ruhstroth-Bauer*
- 525** TEACHING MONOGRAPH: Pathobiology of Neoplasia  
*Richmond T. Prehn and Litsa M. Prehn*
- 551** Animal Model of Human Disease: Combined Immunodeficiency (Severe), Swiss-Type Agammaglobulinemia  
*Travis C. McGuire, Keith L. Banks, and Martine J. Popple*
- 555** Animal Model of Human Disease: Cerebral Calcification, Cytomegalovirus Infection  
*G. Lussier*
- 559** Index of Subjects, Volume 80
- 564** Index of Authors, Volume 80

# **INDEX**

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 81

## Index of Subjects

Volume 81, 1975

- Adenine sulfate**  
dietary, and acute hemorrhagic pancreatic necrosis, 87
- Adrenal glands**  
and animal model of Cushing's syndrome, 459
- Age factors**  
in acute hemorrhagic pancreatic necrosis, 87
- Aleutian mink disease**  
glomerular lesions in, 321
- Alveolitis**  
sclerosing, from cyclophosphamide, 513
- AMP, cyclic**  
lymphoma cell death from, 199
- Amyloid**  
brain deposits in congophilic angiopathy, 349  
intralysosomal formation of fibrils, 101
- Angiopathy**  
congophilic, 349
- Animal models of human disease**  
acute hyperuricemic nephropathy, 367  
bacillary dysentery, 251  
Cushing's syndrome, 459  
 $G_{MI}$ -gangliosidosis type II, 255  
hypertension and obesity, 463  
juvenile rheumatoid arthritis, 699  
*Yersinia enteritis*, 703
- Antitumor agents**  
lethal actions in proliferating cell systems, 205
- Aorta**  
endothelial cell growth inhibition by cartilage, 337  
fibrous plaques and fatty streaks from, 379  
intima repair after mechanical denudation, 15
- Arthritis**  
rheumatoid, juvenile, animal model of, 699
- Atherosclerosis**  
aortic fibrous plaques and fatty streaks in, 379
- Australia antigen (see hepatitis B)**
- Autoradiography**  
of microvascular changes in lymph nodes, 131
- Bacteria**  
animal model of bacillary dysentery, 251  
interaction with platelets, 411  
*Yersinia enteritis* infection, 703
- Bacterial factors**  
biologic effects on cells in culture, 1, 389, 401
- Blood pressure**  
hypertension in obese rats, 463
- Blood vessels (see vasculature)**
- Bone marrow**  
histones in Di Guglielmo syndrome, 493
- Brain**  
amyloid deposits in congophilic angiopathy, 349  
perivascular cuffs in multiple sclerosis, 467
- Capillaries**  
thrombosis of, glomerular, 43
- Carriers**  
of hepatitis B antigen, 611, 651
- Cartilage**  
costal, prednisone affecting, 267  
inhibiting growth of fibroblasts and endothelial cells, 337
- Cell cultures**  
biologic effects of bacterial factors in, 1, 389, 401  
and inhibition of growth by cartilage extracts, 337
- Cell injury**  
cyclic AMP-induced lymphoma cell death, 199  
in ischemia, 179  
and lethal actions of antitumor agents, 205  
liver cell necrosis, 237  
from vinyl chloride and 1,1-dichloroethylene, 219  
from viruses, 163
- Cerebrospinal lipidoses**  
of Friesian cattle, 255
- Chemotactic activity**  
and cell volume changes, 1  
of filtrates from bacterial cultures, 389, 401
- Chemotherapy**  
and lethal actions of antitumor agents, 205  
and prednisone effects on costal cartilage, 267
- Chloroethylene**  
hepatotoxicity of, 219
- Choline**  
dietary, and acute hemorrhagic pancreatic necrosis, 87
- Chondrocytes**  
prednisone affecting, 267
- Collagen**  
in cartilage, after prednisone, 267
- Cornea**  
leukocyte role in vascularization of, 531

- Coronary occlusion**  
and ischemic tissue injury, 179
- Corticosteroids**  
effects on costal cartilage, 267
- Costal cartilage**  
prednisone affecting, 267
- Crystalloids**  
tubular, in lymphocytes in SLE, 561
- Cushing's syndrome**  
animal model of, 459
- Cyclophosphamide**  
sclerosing alveolitis from, 513
- Cytochalasin B**  
and volume changes in PMNs, 1
- Cytocidal agents**  
lethal actions of, 205
- Cytokines**  
activity of, 389
- Cytotoxic activity**  
of bacterial factors in cultures, 389, 401
- Dane particles**  
in sera of hepatitis carriers, 651
- 1,1-Dichloroethylene**  
hepatotoxicity of, 219
- Diet**  
and acute hemorrhagic pancreatic necrosis, 87
- Di Guglielmo syndrome**  
histone localization in, 493
- Dysentery**  
bacillary, animal model of, 251
- Electron microscopy**  
of amyloid fibrils, 101  
of aortic lining repair after denudation, 15  
of brain perivascular cuffs in multiple sclerosis, 467  
of congophilic angiopathy, 349  
of costal cartilage after prednisone, 267  
of Dane particles in hepatitis carriers, 651  
economy of effort in, 503  
of glomerular lesions in Aleutian mink disease, 321  
of histones in Di Guglielmo syndrome, 493  
of hyperuricemic nephropathy, 367  
of lymphocytes in SLE, 561  
of microvascular changes in lymph nodes, 131  
of neuroepithelial differentiation in mouse teratoma, 421  
of platelet secretions, 411  
of sclerosing alveolitis from cyclophosphamide, 513  
of surface epithelium of fetal ovary, 303  
of thymomas, 49
- Endothelial cells**  
aortic, growth inhibition by cartilage, 337
- Enteritis**  
*Yersinia*, animal model of, 703
- Enzymes**  
in aortic fibrous plaques and fatty streaks, 379  
in eosinophil granules, 575  
lysosomal, release in virus infections, 163
- Eosinophils**  
granules in, 575
- Epithelial cells**  
of ovarian surface in fetus, 303  
in thymomas, 49
- Escherichia coli**  
neutrophil chemotactic factors from, 2, 389, 401
- Ethionine**  
dietary, and acute hemorrhagic pancreatic necrosis, 87
- Fatty acids**  
hepatic, in obstetric acute yellow atrophy, 545
- Fatty streaks**  
aortic, in atherosclerosis, 379
- Fibrils**  
amyloid, intralyosomal formation of, 101  
collagen, in cartilage after prednisone, 267
- Fibroblasts**  
and cytotoxic effects of bacterial factors, 389  
growth inhibition by cartilage, 337
- Fluorescent microscopy**  
of glomerular lesions in Aleutian mink disease, 321  
of hepatitis B antigen in liver, 479  
and immunocathodoluminescence technique, 43
- Forbus, Wiley D.**, 260
- Furth, Jacob**, 265
- Galactosamine**  
liver cell necrosis from, 237
- Gangliosidosis**  
GM<sub>1</sub> type II, animal model of, 255
- Glomerular lesions**  
in Aleutian mink disease, 321  
microcapillary thrombosis in, 43
- Glutathione**  
depletion in liver from chloroethylenes, 225
- Gold-Headed Cane Award**, 260
- Grafts**  
skin, and microvascular changes in

- lymph nodes**, 131  
 splenic, morphologic features of, 283
- Granules**  
 in eosinophils, 575
- Heart**  
 ischemic tissue injury in, 179
- Hemorrhage**  
 and acute pancreatic necrosis, 87  
 and congophilic angiopathy, 349
- Hepatitis A**, 683
- Hepatitis B**  
 antigen localization in liver, 479, 619  
 carriers of virus in, 629, 651  
 and Dane particles in sera, 651  
 effects of virus on liver, 609  
 epidemiology of, 629  
 related to hepatic carcinoma, 669
- Histochemical studies**  
 of microvascular changes in lymph nodes, 131
- Histones**  
 localization in Di Guglielmo syndrome, 493
- Hypertension**  
 in obese rats, 463
- Immunocathodoluminescence studies**, 43
- Immunology**  
 and method for localization of hepatitis B antigen in liver, 479  
 and T and B lymphocyte activity, 445
- Inclusions**  
 lymphocyte, in SLE, 561
- Infections (see bacteria; viruses)**
- Ischemia**  
 tissue injury in, 179
- Kidney**  
 acute hyperuricemic nephropathy, 367  
 glomerular lesions in Aleutian mink disease, 321  
 glomerular microcapillary thrombosis, 43  
 in obesity, 117
- Leukocytes**  
 in corneal vascularization, 531  
 polymorphonuclear  
 bacterial chemotactic factor affecting, 401  
 volume changes from chemotactic factor and cytochalasin B, 1
- Lipid(s)**  
 in bacterial chemotactic factor, 401  
 hepatic, in obstetric acute yellow atrophy, 545
- Lipidosis**  
 cerebrospinal, of Friesian cattle, 255
- Liver**  
 carcinoma related to hepatitis, 669  
 cell necrosis in, 237  
 hepatitis A, 683  
*hepatitis B (see hepatitis B)*  
 hepatotoxicity of vinyl chloride and 1,1-dichloroethylene, 219  
 lipid content in obstetric acute yellow atrophy, 545
- Lungs**  
 sclerosing alveolitis from cyclophosphamide, 513
- Lupus erythematosus**  
 lymphocytes in, 561
- Lymph nodes**  
 microvascular changes in, 131
- Lymphocytes**  
 in lupus erythematosus, 561  
 mitogenic activity affected by bacterial factors, 389  
 T and B cells in humans, 445  
 in thymomas, 49
- Lymphokines**  
 compared to bacterial factor activity, 389
- Lymphoma cells**  
 death induced by cyclic AMP, 199
- Lysosomes**  
 in amyloid fibril formation, 101  
 enzyme release in virus infections, 161
- Macrophages**  
 bacterial chemotactic factor affecting, 401  
 migration inhibition by bacterial factor, 389
- Marrow**  
 histones in Di Guglielmo syndrome, 493
- Methionine**  
 dietary, and acute hemorrhagic pancreatic necrosis, 87
- Microvasculature**  
 glomerular microcapillary thrombosis, 43  
 in lymph nodes draining skin allografts, 131
- Myocardium**  
 ischemic injury in, 179
- Necrosis**  
 of liver cells, 237  
 pancreatic, acute hemorrhagic, 87
- Neoplasia**  
 hepatic carcinoma related to hepatitis, 669  
 and lethal actions of antitumor agents, 205  
 neuroepithelial differentiation in mouse teratoma, 421

- of ovarian surface epithelium, 303  
and RNA tumor viruses, 589  
thymoma fine structure, 49
- Nephropathy**  
acute hyperuricemic, 367
- Neuroepithelial differentiation**  
in mouse teratoma, 421
- Neutrophils**  
bacterial chemotactic factor affecting, 1,  
389
- No-reflow**  
in myocardial ischemic injury, 186
- Obesity**  
and hypertension in rats, 463  
kidney in, 117
- Orcin stains**  
for hepatitis B antigen localization in  
liver, 479
- Ovaries**  
fetal surface epithelium related to neoplasia in, 303
- Pancreas**  
acute hemorrhagic necrosis of, 87
- Plaques**  
aortic, in atherosclerosis, 379  
cerebral, in congophilic angiopathy, 349
- Platelets**  
interaction with bacteria, 411
- Picornavirus**  
cell injury from, 163
- Prednisone**  
effects on costal cartilage, 267
- Pregnancy**  
and hepatic lipids in acute fatty liver,  
545
- Protease**  
inhibitors in cartilage, and growth of  
fibroblasts and endothelial cells, 337
- Protein**  
cellular, viruses affecting, 163
- Radioautography**  
of microvascular changes in lymph  
nodes, 131
- Reticuloendothelial cells**  
lysosomal activity in, and amyloid fibril  
formation, 101
- Rheumatoid arthritis**  
juvenile, animal model of, 699
- RNA**  
tumor viruses, 589
- Rous-Whipple Award**, 263
- Sclerosis**  
and alveolitis from cyclophosphamide,  
513  
multiple, and perivascular cuffs in brain,  
467
- Serotonin**  
release from platelets stimulated by bacteria, 411
- Sex factors**  
in acute hemorrhagic pancreatic necrosis, 87
- Shigellosis**  
animal model of, 251
- Skin grafts**  
and microvascular changes in draining  
lymph nodes, 131
- Spleen**  
morphologic features of allografts, 283
- Thrombosis**  
glomerular microcapillary, 43
- Thymomas**  
fine structure of, 49
- Tubuloreticular structures**  
in lymphocytes in SLE, 561
- Tumors (see neoplasia)**
- Twins**  
lupus erythematosus in, 561
- Uric acid**  
and acute hyperuricemic nephropathy,  
367
- Vasculation**  
aortic lining repair after denudation, 15  
congophilic angiopathy, 349  
fatty streaks in aorta, 379  
glomerular microcapillary thrombosis,  
43  
leukocyte role in corneal vascularization, 531  
lymph node microvascular changes, 131  
in obese hypertensive rats, 463  
perivascular cuffs in multiple sclerosis,  
467
- Vinyl chloride**  
hepatotoxicity of, 219
- Viruses**  
Aleutian mink disease, 321  
cell injury from, 163  
hepatitis A, 683  
hepatitis B, 609  
RNA tumor viruses, 589
- Yersinia enteritis**  
animal model of, 703

## Index of Authors

Volume 81, 1975

<b>Allen HL, Newton CD:</b> Animal Model of Human Disease: Juvenile rheumatoid arthritis (December).....	699
<b>Amsden A:</b> See Yoshida T, Cohen S, Bigazzi PE, Kurasuji T, Amsden A .....	389
<b>Anderson AO:</b> See Anderson ND, Anderson AO, Wyllie RG.....	131
<b>Anderson ND, Anderson AO, Wyllie RG:</b> Microvascular changes in lymph nodes draining skin allografts (October).....	131
<b>Barker EA:</b> See Eisele JE, Barker EA, Smuckler EA .....	545
<b>Bearman R:</b> See Levine GD, Rosai J, Bearman R, Polliack A .....	49
<b>Becker EL:</b> See Hsu LS, Becker EL.....	1
<b>Beller FK:</b> See Schmidt EH, Bröcker W, Wagner H, Pfefferkorn G, Beller FK.....	43
<b>Benditt EP:</b> See Schwartz SM, Stemerman MB, Benditt EP .....	15
<b>Bigazzi PE:</b> See Yoshida T, Cohen S, Bigazzi PE, Kurasuji T, Amsden A .....	389
<b>Bitter-Suermann H, Herbertson BM:</b> Morphologic features of spleen allografts in rats (November) .....	283
<b>Block SR:</b> See Imamura M, Block SR, Mellors RC.....	561
<b>Bluestone R:</b> See Waisman J, Mwasi LM, Bluestone R, Klinenberg JR .....	367
<b>Blumberg BS:</b> Introduction. Symposium: Seminar on Hepatitis (December).....	607
<b>Blumberg BS, Larouzé B, London WT, Werner B, Hesser JE, Millman I, Saimot G, Payet M:</b> The relation of infection with the hepatitis B agent to primary hepatic carcinoma (December).....	669
<b>Bourne HR:</b> See Coffino P, Bourne HR, Tomkins GM .....	199
<b>Brocker W:</b> See Schmidt EH, Brocke W, Wagner H, Pfefferkorn G, Beller FK .....	43
<b>Capen CC, Martin SL:</b> Animal Model of Human Disease: Cushing's syndrome (November).....	459
<b>Carter PB:</b> Animal Model of Human Disease: <i>Yersinia enteritis</i> (December) .....	703
<b>Clawson CC, Rao GHR, White JG:</b> Platelet interaction with bacteria (November)...	411
<b>Coffino P, Bourne HR, Tomkins GM:</b> Mechanism of lymphoma cell death induced by cyclic AMP (October).....	199
<b>Cohen AH:</b> Massive obesity and the kidney: A morphologic and statistical study (October) .....	117
<b>Cohen AS:</b> See Shirahama T, Cohen AS.....	101
<b>Cohen S:</b> See Yoshida T, Cohen S, Bigazzi PE, Kurasuji T, Amsden A .....	389
<b>Dearden LC, Mosier HD Jr:</b> The effect of prolonged prednisone treatment on human costal cartilage (November).....	267
<b>Donnelly WJC, Sheahan BJ:</b> Animal Model of Human Disease: GM1-gangliosidosis type II (October) .....	255
<b>Eisele JW, Barker EA, Smuckler EA:</b> Lipid content in the liver of fatty metamorphosis of pregnancy (December) .....	545
<b>Eisenstein R, Kuettner KE, Neapolitan C, Soble LW, Sorgente N:</b> The resistance of certain tissues to invasion (November).....	337

## CONTENTS FOR VOLUME 81, 1975

### October

- 1 Volume Changes Induced in Rabbit Polymorphonuclear Leukocytes by Chemo-tactic Factor and Cytochalasin B  
*Long S. Hsu and Elmer L. Becker*
- 15 The Aortic Intima. II. Repair of the Aortic Lining After Mechanical Denudation  
*S. M. Schwartz, M. B. Stemerman, and E. P. Benditt*
- 43 Glomerular Microcapillary Thrombosis Demonstrated by the New Technique of Immunocathodoluminescence  
*E. Heinrich Schmidt, Werner Bröcker, Horst Wagner, Gerhard Pfefferkorn, and Fritz K. Beller*
- 49 The Fine Structure of Thymoma, With Emphasis on Its Differential Diagnosis: A Study of Ten Cases  
*Gerald D. Levine, Juan Rosai, Robert M. Bearman, and Aaron Pollack*
- 87 Acute Hemorrhagic Pancreatic Necrosis in Mice: Influence of the Age and Sex of the Animals and of Dietary Ethionine, Choline, Methionine, and Adenine Sulfate  
*Benito Lombardi and N. Kalpatnapu Rao*
- 101 Intralysosomal Formation of Amyloid Fibrils  
*Tsuranobu Shirahama and Alan S. Cohen*
- 117 Massive Obesity and the Kidney: A Morphologic and Statistical Study  
*Arthur H. Cohen*
- 131 Microvascular Changes in Lymph Nodes Draining Skin Allografts  
*Norman D. Anderson, Arthur O. Anderson, and Robert G. Wyllie*

### SYMPOSIUM: THE BIOCHEMICAL PATHOLOGY OF CELL INJURY

- 162 Introduction  
*Emmanuel Farber*
- 163 Cell Injury With Viruses  
*Igor Tamm*
- 179 Ischemic Tissue Injury  
*Robert B. Jennings, Charles E. Ganote, and Keith A. Reimer*

- 199 Mechanism of Lymphoma Cell Death Induced by Cyclic AMP  
*Philip Coffino, Henry R. Bourne, and Gordon M. Tomkins*
- 205 The Lethal Actions of Antitumor Agents in Proliferating Cell Systems *In Vivo*  
*Frederick S. Philips and Stephen S. Sternberg*
- 219 Hepatotoxicity of Vinyl Chloride and 1,1-Dichloroethylene: Role of Mixed Function Oxidase System  
*Edward S. Reynolds, Mary Treinen Moslen, Sandor Szabo, Rudolph J. Jaeger, and Sheldon D. Murphy*
- 237 The Biochemical Pathology of Liver Cell Necrosis  
*John L. Farber and Samir K. El-Mofty*
- 251 Animal Model of Human Disease: Bacillary Dysentery, Shigellosis, *Shigella* Dysentery  
*Akio Takeuchi, Helen R. Jervis, and Samuel B. Formal*
- 255 Animal Model of Human Disease:  $G_{M1}$ -Gangliosidosis Type II  
*W. J. C. Donnelly and B. J. Sheahan*

#### **November**

- 259 Presentation of the Gold Headed Cane to Wiley D. Forbus  
*Leland D. Stoddard and Nathan Kaufman*
- 263 Presentation of the First Rous-Whipple Award to Jacob Furth  
*Emmanuel Farber*
- 267 The Effect of Prolonged Prednisone Treatment on Human Costal Cartilage  
*Lyle C. Dearden and H. David Mosier, Jr.*
- 283 Morphologic Features of Spleen Allografts in Rats: Graft Rejection, Acceptance, or Lethal Graft-Versus-Host Disease in the Same Donor-Recipient Pairing  
*Hinrich Bitter-Suermann and Basil M. Herbertson*
- 303 Surface Epithelium of the Developing Ovary: Possible Correlation With Ovarian Neoplasia  
*Bernard Gondos*
- 321 The Influence of Genotype on the Development of Glomerular Lesions in Mink With Aleutian Disease Virus: A Correlated Light, Fluorescent, and Electron Microscopic Study  
*M. I. Johnson, J. B. Henson, and J. R. Gorham*
- 337 The Resistance of Certain Tissues to Invasion. III. Cartilage Extracts Inhibit the Growth of Fibroblasts and Endothelial Cells in Culture  
*Reuben Eisenstein, Klaus E. Kuettner, Carole Neapolitan, Lawrence W. Soble, and Nino Sorgente*
- 349 Congophilic Angiopathy Complicated by Surgery and Massive Hemorrhage: A Light and Electron Microscopic Study  
*Richard M. Torack*
- 367 Acute Hyperuricemic Nephropathy in Rats: An Electron Microscopic Study  
*Jerry Waisman, Lawrence M. Mwasi, Rodney Bluestone, and James R. Klinenberg*

- 379** Clonal Characteristics of Fibrous Plaques and Fatty Streaks From Human Aortas  
*T. A. Pearson, A. Wang, K. Solez, and R. H. Heptinstall*
- 389** Inflammatory Mediators in Culture Filtrates of *Escherichia coli*: Macrophage Migration Inhibitory, Neutrophil, Chemotactic, Lymphocyte Mitogenic, and Fibroblast Cytotoxic Activities  
*Takeshi Yoshida, Stanley Cohen, Pierluigi E. Bigazzi, Tadatoshi Kurasuji, and Adele Amsden*
- 401** New Aspects of Chemotaxis: Specific Target-Cell Attraction by Lipid and Lipoprotein Fractions of *Escherichia coli* Chemotactic Factor  
*John A. Tainer, Stephen R. Turner, and William S. Lynn*
- 411** Platelet Interaction With Bacteria. IV. Stimulation of the Release Reaction  
*C. C. Clawson, Gundu H. R. Rao, and James G. White*
- 421** An Experimental Mouse Testicular Teratoma as a Model for Neuroepithelial Neoplasia and Differentiation. II. Electron Microscopy  
*M. M. Herman, J. C. Sipe, L. J. Rubenstein, S. R. VandenBerg, A. M. Spence, and J. Vraa-Jensen*
- 445** REVIEW ARTICLE: T and B Lymphocytes in Humans  
*John H. Kersey and Kazimiera J. Gajl-Peczalska*
- 459** Animal Model of Human Disease: Cushing's Syndrome, Hypercortisolism, Cushing's Disease, Nelson's Syndrome  
*Charles C. Capen and Sharron L. Martin*
- 463** Animal Model of Human Disease: Hypertension, Obesity, Type 4 Hyperlipidemia, Vascular Disease  
*Simon Koletsky*

#### December

- 467** Ultrastructural Studies of Perivascular Cuffing Cells in Multiple Sclerosis Brain  
*Ryuichi Tanaka, Yuzo Iwasaki, and Hilary Koprowski*
- 479** Localization of Hepatitis B Surface Antigen in Conventional Paraffin Sections of the Liver: Comparison of Immunofluorescence, Immunoperoxidase, and Orcein Staining Methods With Regard to Their Specificity and Reliability as Antigen Marker  
*N. C. Nayak and Rajeev Sachdeva*
- 493** Ultrastructural Localization of Histones in Chronic Erythremic Myelosis  
*Lawrence Kass and Robert H. Gray*
- 503** Economy of Effort in Electron Microscope Morphometry  
*Jonathan Shay*
- 513** Sclerosing Alveolitis Induced by Cyclophosphamide: Ultrastructural Observations on Alveolar Injury and Repair  
*Victor E. Gould and Jacqueline Miller*
- 531** An Evaluation of the Role of Leukocytes in the Pathogenesis of Experimentally Induced Corneal Vascularization. II. Studies on the Effect of Leukocytic Elimination on Corneal Vascularization  
*Carl H. Fromer and Gordon K. Klintworth*

- 545 Lipid Content in the Liver of Fatty Metamorphosis of Pregnancy**  
*John W. Eisele, Edward A. Barker, and Edward A. Smuckler*
- 561 Electron Microscopic Study of Distinctive Structures in Peripheral Blood Lymphocytes Obtained From Twins With Systemic Lupus Erythematosus**  
*Masakatsu Imamura, Sidney R. Block, and Robert C. Mellors*
- 575 Isolation and Partial Characterization of Human Eosinophil Granules: Comparison to Neutrophils**  
*Burton C. West, Nancy A. Gelb, and Alan S. Rosenthal*
- 589 PARKE-DAVIS AWARD LECTURE: Evolution and Modes of Transmission of RNA Tumor Viruses**  
*George J. Todaro*
- SYMPOSIUM: SEMINAR ON HEPATITIS**
- 608 Introduction**  
*Baruch S. Blumberg*
- 609 Clinical Pathologic Correlation in Viral Hepatitis: The Effect of the Virus on the Liver**  
*Hans Popper*
- 629 Recent Advances in the Study of the Epidemiology of Hepatitis B**  
*Wolf Szmuness*
- 651 Biochemical Characterization of Australia Antigen: Evidence for Defective Particles of Hepatitis B Virus**  
*John L. Gerin, Eugenie C. Ford, and Robert H. Purcell*
- 669 The Relation of Infection With the Hepatitis B Agent to Primary Hepatic Carcinoma**  
*Baruch S. Blumberg, Bernard Larouzé, W. Thomas London, Barbara Werner, Jana E. Hesser, Irving Millman, Gerard Saimot, and Maurice Payet*
- 683 Hepatitis A: Perspectives and Recent Advances**  
*James E. Maynard*
- 695 The American Association of Pathologists and Bacteriologists: Seventy-second Annual Meeting: Business Meeting**
- 699 Animal Model of Human Disease: Juvenile Rheumatoid Arthritis**  
*Henry L. Allen and Charles D. Newton*
- 703 Animal Model of Human Disease: Yersinia Enteritis**  
*Philip B. Carter*
